NONFINAL OFFICE ACTION

The USPTO must receive applicant's response to this letter within six months of the issue date below or the application will be [abandoned](#). Respond using the Trademark Electronic Application System (TEAS). A link to the appropriate TEAS response form appears at the end of this Office action.

Issue date: August 23, 2022

INTRODUCTION

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue(s) below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

SEARCH RESULTS FROM USPTO DATABASE FOR CONFLICTING MARKS

The trademark examining attorney has searched the USPTO database of registered and pending marks and has found no conflicting marks that would bar registration under Trademark Act Section 2(d). 15 U.S.C. §1052(d); TMEP §704.02.

RULE 2.61(b) REQUEST FOR ADDITIONAL SPECIMEN SUBMISSIONS

Given the wide variety and range of unrelated goods that applicant has listed in the application, applicant **must** submit additional specimens to allow for a complete and accurate examination of the application and assessment of the registrability of the subject mark, in accordance with Rule 2.61(b). 37 C.F.R. §2.61(b); *see* TMEP §904.01(a).

Applicant **must** submit specimens demonstrating use of the mark on **all** the following goods:

1. Air handlers;
2. Aircraft lavatories sold equipped with sanitary facilities, namely, toilets and sinks;
3. Barbecue apparatus, namely, fuel starter in the nature of a metal container with a wooden handle into which fuel briquettes may be placed, lit, and then poured into a barbecue grill for the purpose of speeding up the ready to cook time of barbecue fuels;
4. Cooling units comprised of cold packs, aluminum tiles, and insulated plastic bases, for cooling animals and pets, not for veterinary purposes;
5. Filters, heaters and pumps sold in combination for use in hot tubs;
6. Heated dispensing unit for tissues, towelettes, wipes, cloths and pads;
7. Hydroponic growing systems comprised of light emitting diode (LED) plant grow lights, grow cabinets in the nature of closed environments with integrated misting chambers, and automated controls therefor;
8. Interior environment control system for commercial buildings, namely, heaters, ventilators and humidifiers all sold as a unit;
9. Plumbing fixtures, namely, sink sprayers;
10. Refrigerated medical container for storage, transportation and cooling of medicines and pharmaceuticals;
11. Showers and shower cubicles;
12. Water treatment apparatus, namely, clarification and thickening machines for use in treatment of liquids in the nature of water, waste water and industrial water

If applicant is unable to provide specimens to support use of these items, applicant must delete these entries, or amend the filing basis for those goods that were not in proper use as of the application filing date to an [intent to use basis under Section 1\(b\)](#). This option will later necessitate additional fees and filing requirements such as providing a specimen for these goods at a subsequent date.

Failure to comply with a requirement to furnish additional specimens is grounds for refusing registration. *In re Harley*, 119 USPQ2d 1755, 1757-58 (TTAB 2016); TMEP §814. Merely stating that evidence is available on applicant's or a third party website or providing a hyperlink of such a website is an insufficient response and will not make the additional specimens of record. *See In re Planalytics, Inc.*, 70 USPQ2d 1453, 1457-58 (TTAB 2004).

Response guidelines. For this application to proceed, applicant must explicitly address each refusal and/or requirement in this Office action. For a refusal, applicant may provide written arguments and evidence against the refusal, and may have other response options if specified above. For a requirement, applicant should set forth the changes or statements. Please see “[Responding to Office Actions](#)” and the informational [video “Response to Office Action”](#) for more information and tips on responding.

If applicant does not timely respond to this Office action, the following goods **will be deleted** from the application:

Air handlers; Aircraft lavatories sold equipped with sanitary facilities, namely, toilets and sinks; Barbecue apparatus, namely, fuel starter in the nature of a metal container with a wooden handle into which fuel briquettes may be placed, lit, and then poured into a barbecue grill for the purpose of speeding up the ready to cook time of barbecue fuels; Cooling units comprised of cold packs, aluminum tiles, and insulated plastic bases, for cooling animals and pets, not for veterinary purposes; Filters, heaters and pumps sold in combination for use in hot tubs; Heated dispensing unit for tissues, towelettes, wipes, cloths and pads; Hydroponic growing systems comprised of light emitting diode (LED) plant grow lights, grow cabinets in the nature of closed environments with integrated misting chambers, and automated controls therefor; Interior environment control system for commercial buildings, namely, heaters, ventilators and humidifiers all sold as a unit; Plumbing fixtures, namely, sink sprayers; Refrigerated medical container for storage, transportation and cooling of medicines and pharmaceuticals; Showers and shower cubicles; Water treatment apparatus, namely, clarification and thickening machines for use in treatment of liquids in the nature of water, waste water and industrial water

See 37 C.F.R. §2.65(a); TMEP §718.02(a).

In such case, the application will then proceed with the following goods ***only***:

Electric luminaries; Flexible pipes being parts of shower plumbing installations.

See TMEP §718.02(a).
