NONFINAL OFFICE ACTION

The USPTO must receive applicant's response to this letter within six months of the issue date below or the application will be [abandoned](#). Respond using the Trademark Electronic Application System (TEAS). A link to the appropriate TEAS response form appears at the end of this Office action.

Issue date: August 26, 2022

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue(s) below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

SUMMARY OF ISSUES:

- Identification and Classification of Services Requirement
- Clarification of Number of Classes for which Registration Is Sought Requirement

SEARCH OF USPTO DATABASE OF MARKS

The trademark examining attorney has searched the USPTO database of registered and pending marks and has found no conflicting marks that would bar registration under Trademark Act Section 2(d). 15 U.S.C. §1052(d); TMEP §704.02.

IDENTIFICATION AND CLASSIFICATION OF SERVICES REQUIREMENT

Applicant must clarify the wording “Research, development and support in the fields of AI (artificial intelligence), drones, finance, governance” in the identification of services in International Class(es) 42 because it is indefinite and too broad. *See* 37 C.F.R. §2.32(a)(6); TMEP §§1402.01, 1402.03. This wording is indefinite because it does not make clear what the services, particularly the nature of the support services and the types of research. Further, this wording could identify services in more than one international class. For example, financial research is in International Class 36, scientific and technological research and development in the fields of AI (artificial intelligence) and drones are in International Class 42, and "providing a website featuring information on the development of privacy, security and data governance law" is in Class 45.

Applicant may adopt the following identification of services, if accurate:

- **International Class 36:** Research, development, and support in the field of finance, **namely, financial research**
- **International Class 42:** **Scientific and technological** research and development **in the fields of AI (artificial intelligence) and drones**, and **technical** support services, **namely**, troubleshooting in the nature of diagnosing computer hardware and software problems **in the fields of AI (artificial intelligence) and drones**
- **International Class 45:** Research **and** development in the field of governance, **namely**, *{specify nature of services, e.g., providing a website featuring information on the development of data governance law, etc.}*

Applicant may amend the identification to clarify or limit the goods and/or services, but not to broaden or expand the goods and/or services beyond those in the original application or as acceptably amended. *See* 37 C.F.R. §2.71(a); TMEP §1402.06. Generally, any deleted goods and/or services may not later be reinserted. *See* TMEP §1402.07(e).

For assistance with identifying and classifying goods and services in trademark applications, please see the USPTO’s online searchable [U.S. Acceptable Identification of Goods and Services Manual](#). *See* TMEP §1402.04.

CLARIFICATION OF NUMBER OF CLASSES FOR WHICH REGISTRATION IS SOUGHT REQUIREMENT

The application references goods and/or services based on use in commerce in more than one international class; therefore, applicant must satisfy all the requirements below for each international class:

(1) **List the goods and/or services by their international class number** in consecutive numerical order, starting with the lowest numbered class (for example, International Class 3: perfume; International Class 18: cosmetic bags sold empty).

(2) **Submit a filing fee for each international class** not covered by the fee(s) already paid (view the [USPTO's current fee schedule](#)). Specifically, the application identifies goods and/or services based on use in commerce that are classified in at least 3 classes; however, applicant submitted a fee(s) sufficient for only 1 class(es). Applicant must either (a) submit the filing fees for the classes not covered by the submitted fees or (b) restrict the application to the number of classes covered by the fees already paid.

(3) **Submit verified dates of first use of the mark** anywhere and in commerce for each international class. [See more information about verified dates of use.](#)

(4) **Submit a specimen for each international class.** The current specimen is acceptable for class(es) 42; and applicant needs a specimen for class(es) 36 and 45. [See more information about specimens.](#)

Examples of specimens. Specimens for goods include a photograph of (1) the actual goods bearing the mark; (2) an actual container, packaging, tag or label for the goods bearing the mark; or (3) a point-of-sale display showing the mark directly associated with the goods. *See* 37 C.F.R. §2.56(b)(1), (c); TMEP §904.03(a)-(m). A webpage specimen submitted as a display associated with the goods must show the mark in association with a picture or textual description of the goods and include information necessary for ordering the goods. TMEP §904.03(i); *see* 37 C.F.R. §2.56(b)(1), (c).

Specimens for services must show a direct association between the mark and the services and include: (1) copies of advertising and marketing material, (2) a photograph of business signage or billboards, or (3) materials showing the mark in the sale, rendering, or advertising of the services. *See* 37 C.F.R. §2.56(b)(2), (c); TMEP §1301.04(a), (h)(iv)(C).

Any webpage printout or screenshot submitted as a specimen must include the webpage's URL and the date it was accessed or printed on the specimen itself, within the TEAS form that submits the specimen, or in a verified statement under 37 C.F.R. §2.20 or 28 U.S.C. §1746 in a later-filed response. *See* 37 C.F.R. §2.56(c); TMEP §§904.03(i), 1301.04(a).

(5) **Submit a verified statement** that “**The specimen was in use in commerce on or in connection with the goods and/or services listed in the application at least as early as the filing date of the application.**” [See more information about verification.](#)

See 37 C.F.R. §2.86(a); TMEP §§1403.01, 1403.02(c).

For an overview of the requirements for a Section 1(a) multiple-class application and how to satisfy the requirements online using the Trademark Electronic Application System (TEAS) form, see the [Multiple-class Application webpage](#).

The fee for adding classes to a TEAS Standard application is \$350 per class. *See* 37 C.F.R. §2.6(a)(1)(iii). For more information about adding classes to an application, see the [Multiple-class](#)

[Application webpage](#).
