### United States Patent and Trademark Office (USPTO) Office Action (Official Letter) About Applicant's Trademark Application

**U.S. Application Serial No.** 97120641

**Mark:** GREENSPACE

**Correspondence Address:**

NORMAN E. LEHRER  
NORMAN E. LEHRER, P.C.  
52 BERLIN ROAD  
SUITE 1000  
CHERRY HILL NJ 08034 UNITED STATES

**Applicant:** School Outfitters, LLC

**Reference/Docket No.** 7427-30

**Correspondence Email Address:** [patentsnj@yahoo.com](mailto:patentsnj@yahoo.com)

## NONFINAL OFFICE ACTION

**The USPTO must receive applicant's response to this letter within six months of the issue date below or the application will be abandoned.** Respond using the Trademark Electronic Application System (TEAS). A link to the appropriate TEAS response form appears at the end of this Office action.

**Issue date:** August 25, 2022

### **INTRODUCTION**

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

### **SEARCH RESULTS**

The trademark examining attorney searched the USPTO database of registered and pending marks and found no conflicting marks that would bar registration under Trademark Act Section 2(d). 15 U.S.C. §1052(d); TMEP §704.02.

### **SECTION 2(e)(1) REFUSAL – MERELY DESCRIPTIVE**

Registration is refused because the applied-for mark merely describes a feature of Applicant's goods. Trademark Act Section 2(e)(1), 15 U.S.C. §1052(e)(1); *see* TMEP §§1209.01(b), 1209.03 *et seq.*

A mark is merely descriptive if it describes an ingredient, quality, characteristic, function, feature, purpose, or use of an applicant's goods. TMEP §1209.01(b); *see, e.g., In re TriVita, Inc.*, 783 F.3d 872, 874, 114 USPQ2d 1574, 1575 (Fed. Cir. 2015) (quoting *In re Oppedahl& Larson LLP*, 373 F.3d 1171, 1173, 71 USPQ2d 1370, 1371 (Fed. Cir. 2004)); *In re Steelbuilding.com*, 415 F.3d 1293, 1297, 75 USPQ2d 1420, 1421 (Fed. Cir. 2005) (citing *Estate of P.D. Beckwith, Inc. v. Comm'r of Patents*, 252 U.S. 538, 543 (1920)).

The applicant's mark is **GREENSPACE** for "Outdoor furniture; Plastic furniture for gardens".

Here, the wording "GREEN SPACE" is defined as "community space consisting of land (such as parks) rather than buildings" (See attached evidence from merriam-webster.com). In addition, the application identifies the goods as "Outdoor furniture; Plastic furniture for gardens". Moreover, the attached evidence indicates that furniture is commonly used in, and designed for, community spaces consisting of land and greenery, and the term "GREEN SPACE" is commonly used in relation to outdoor furniture in the marketplace (See attached evidence from amezeus.com, paysalia.com, homify.com, caddetailsblog.com, wsj.com, market-x.com, frescura.it, and sustainablegraphicdesign.blogspot.com). In this case, the wording "GREENSPACE" immediately conveys and merely describes a feature or purpose of applicant's identified goods, namely, furniture for community spaces consisting of land and greenery.

Each word in Applicant's composite mark, when considered individually and as a whole, immediately conveys this feature of Applicant's goods. Generally, if the individual components of a mark retain their descriptive meaning in relation to the goods, the combination results in a composite mark that is itself descriptive and not registrable. *In re Fat Boys Water Sports LLC*, 118 USPQ2d 1511, 1516 (TTAB 2016) (citing *In re Tower Tech, Inc.*, 64 USPQ2d 1314, 1317-18 (TTAB (2002)); TMEP §1209.03(d); *see, e.g., In re Cannon Safe, Inc.*, 116 USPQ2d 1348, 1351 (TTAB 2015) (holding SMART SERIES merely descriptive of metal gun safes, because "each component term retains its merely descriptive significance in relation to the goods, resulting in a mark that is also merely descriptive"); *In re King Koil Licensing Co.*, 79 USPQ2d 1048, 1052 (TTAB 2006) (holding THE BREATHABLE MATTRESS merely descriptive of beds, mattresses, box springs, and pillows where the evidence showed that the term "BREATHABLE" retained its ordinary dictionary meaning when combined with the term "MATTRESS" and the resulting combination was used in the relevant industry in a descriptive sense); *In re Associated Theatre Clubs Co.*, 9 USPQ2d 1660, 1663 (TTAB 1988) (holding GROUP SALES BOX OFFICE merely descriptive of theater ticket sales services, because such wording "is nothing more than a combination of the two common descriptive terms most applicable to applicant's services which in combination achieve no different status but remain a common descriptive compound expression"). Only where the combination of descriptive terms creates a unitary mark with a unique, incongruous, or otherwise nondescriptive meaning in relation to the services is the combined mark registrable. *See In re Colonial Stores, Inc.*, 394 F.2d 549, 551, 157 USPQ 382, 384 (C.C.P.A. 1968); *In re Positec Grp. Ltd.*, 108 USPQ2d 1161, 1162-63 (TTAB 2013). In this case, Applicant's mark does not seem to create any additional non-descriptive meaning in relation to the goods; rather, the wording "GREENSPACE" only describes a feature or purpose of the furniture goods, namely, that they are for community green spaces.

Although applicant's mark has been refused registration, applicant may respond to the refusal by submitting evidence and arguments in support of registration.

### ***Supplemental Register Advisory***

Although an amendment to the Supplemental Register would normally be an appropriate response to this refusal, such a response is not appropriate in the present case. The instant application was filed under Trademark Act Section 1(b) and is not eligible for registration on the Supplemental Register until an acceptable amendment to allege use meeting the requirements of 37 C.F.R. §2.76 has been timely filed. 37 C.F.R. §2.47(d); TMEP §§816.02, 1102.03.

If applicant files an acceptable allegation of use and also amends to the Supplemental Register, the application effective filing date will be the date applicant met the minimum filing requirements under 37 C.F.R. §2.76(c) for an amendment to allege use. TMEP §§816.02, 1102.03; *see* 37 C.F.R. §2.75(b). In addition, the undersigned trademark examining attorney will conduct a new search of the USPTO records for conflicting marks based on the later application filing date. TMEP §§206.01, 1102.03.

To amend the application filing basis from an intent-to-use application under Trademark Act Section 1(b) to a use in commerce basis under Section 1(a), applicant must file, prior to approval of the mark for publication, an amendment to allege use that satisfies the requirements of 37 C.F.R. §2.76. See 15 U.S.C. §1051(c); 37 C.F.R. §2.35(b)(8); TMEP §§806.01(b), 1103.

The following must be submitted in an amendment to allege use in order to amend an application to use in commerce under Section 1(a):

- 1) The following statements: “Applicant believes applicant is the owner of the mark” and “the mark is in use in commerce.”
- 2) The date of first use of the mark anywhere on or in connection with the goods and/or services.
- 3) The date of first use of the mark in commerce as a trademark or service mark.
- 4) The goods specified in the application.
- 5) A specimen showing how applicant uses the mark in commerce for each class of goods for which use is being asserted. If a single specimen supports multiple classes, applicant should indicate which classes the specimen supports rather than providing multiple copies of the same specimen.
- 6) A filing fee of \$100 per class for each international class of goods for which use is being asserted (current fee information should be confirmed at [http://www.uspto.gov/trademarks/tm\\_fee\\_info.jsp](http://www.uspto.gov/trademarks/tm_fee_info.jsp)).
- 7) Verification of the above (1) through (4) requirements in an affidavit or signed declaration under 37 C.F.R. §2.20.

See 37 C.F.R. §§2.6(a)(2), 2.56, 2.76(b); TMEP §§1104.08, 1104.10(b)(v).

An amendment to allege use may be filed online at <http://www.uspto.gov/trademarks/teas/index.jsp>. An amendment to allege use is not considered a response to an Office action. 37 C.F.R. §2.76(h); TMEP §1104. Applicant must file a separate response to any outstanding Office action. TMEP §1104; see 37 C.F.R. §2.76(h).

Please call or email the assigned trademark examining attorney with questions about this Office action. Although an examining attorney cannot provide legal advice, the examining attorney can provide additional explanation about the refusal(s) and/or requirement(s) in this Office action. *See* TMEP §§705.02, 709.06. The USPTO does not accept emails as responses to Office actions; however, emails can be used for informal communications and are included in the application record. *See* 37 C.F.R. §§2.62(c), 2.191; TMEP §§304.01-.02, 709.04-.05.

## RESPONSE GUIDANCE

- **Missing the response deadline to this letter will cause the application to abandon.** The response must be received by the USPTO before midnight **Eastern Time** of the last day of the response period. TEAS maintenance or unforeseen circumstances could affect an applicant's ability to timely respond.
- **Responses signed by an unauthorized party** are not accepted and can **cause the application to abandon**. If applicant does not have an attorney, the response must be signed by the individual applicant, all joint applicants, or someone with legal authority to bind a juristic applicant. If applicant has an attorney, the response must be signed by the attorney.
- If needed, **find contact information for the supervisor** of the office or unit listed in the signature block.

SHOW EXHIBIT VISIT EXHIBITORS LIST SCHEDULE NEWS

The creation of a green space is not an easy task for public authorities! From the design through to maintenance, nothing must be left to chance. To guide you in your approach, we have listed all the articles that help you understand what needs to be done when creating a green space.

## Step one. Green space design

When designing or reworking a green space open to the public, you have to start by **answering the following questions**. What is the space for? Who is it for? What features must it have? These articles will help you find the right answers!

- [Anticipating pitfalls to avoid when designing green spaces](#)

The WHO (World Health Organization) studied the problems most frequently encountered when designing green spaces. This is a summary of their findings!

- [Using landscape planning to create user-friendly green spaces](#)

It is difficult to understand what makes town planning user-friendly. We list "must" urban and sociological elements to include, with several real-life examples.

- [How to promote urban sport by adapting the city landscape](#)

The boom in urban sports impacts all communities and means that town planning has to be adapted to promote this practice beneficial for health. Here's how!

- [Using community gardens to fight exclusion](#)

Green spaces can be used to help the people excluded from society and/or the workplace. Find inspiration in our examples of some green spaces designs.

- [Pollens and gardens: 5 tips for designing less allergenic green spaces](#)

Rhinitis, conjunctivitis, asthma... The allergy season, usually from February to September, resounds with sneezes. Solutions exist to limit the concentration of allergens in green spaces to bring relief to involuntary snifflers.

- [\*\*A feast for the eyes – and the taste-buds: gardens users can eat!\*\*](#)

Why not design a healthy and self-sustaining agrosystem, inspired by nature, where all the plants cohabit respectfully? An interactive, fun concept, which charms all users!

- [\*\*Therapeutic gardens: making the most of a garden's virtues\*\*](#)

The way therapeutic gardens work is by amplifying some of the virtues of traditional gardens to improve wellbeing. Methods include the choice of plants, circuits making it easy to get around, etc.

## **Some tools landscape designers can use**

The landscape planning sector has a host of tools to help public authorities and private initiatives create their green spaces. We review some of them in the Paysalia blog!

- [\*\*4 alternatives to AutoCAD for designing green spaces in 3D\*\*](#)

Here are 4 alternative software packages to AutoCAD for landscape gardeners for designing green spaces in 3D. Click to explore!

- [\*\*Check out Floriscope, the plant application blooming on the web\*\*](#)

Floriscope is a French Web application, created in the context of the Végébase project, defining the plants best adapted for the green space you are designing.

- [\*\*Zoom on the list of plants bees find most attractive\*\*](#)

To contribute to bee survival, it is essential to pick the right range of flowers. Here is a list of the most attractive plants!

- [\*\*Positive productivity applied to forestation: an effective method for urban reforestation!\*\*](#)

The idea of planting forests in city centers is slowly taking root – but how can we accelerate this trend? Here are some innovative techniques!

- [\*\*Phytotechnology: a sustainable tool for polluted soil management\*\*](#)

Phytotechnologies make it possible to manage or cleanse grounds with plants - a useful technique for recovering ground in bad condition, provided that the main aim of the green space is not to host the public!

## **Choose the right furniture for your green space**

A recently created green space would be quite empty without brand new furniture! Check out our articles on the subject for some ideas.

- [\*\*Adventure playgrounds. Inspired by new ideas\*\*](#)

Because adventure playground maintenance involves regular and expert care, keep up to date about the safety and durability of this specific kind of furniture!

- [\*\*Power your street furniture with solar energy!\*\*](#)

Solar town planning may well be the way to meet the needs of park users while limiting the environmental impact of street furniture.

- [\*\*Bringing pollinators back to towns: 6 landscape designs that attract insects\*\*](#)

Bees, butterflies, flies and dragonflies can flourish in urban centers. Here are some easy ways to attract them!

- [LED street lights in urban landscapes](#)

LED lighting is a modern alternative to traditional street lights. Check out the advantages!

- [Making urban green spaces safe](#)

New uses, overcrowding, new risks... Green space management has to include new security measures!

## Green space maintenance management

Technical maintenance or installation operations need to be planned year by year. The question of maintenance **must be addressed at the design phase of all green spaces** as it needs to be budgeted. What skills will be necessary? What equipment will be needed and how much will it cost? The following articles will put you on the right track.

- [How to manage cigarette butts in public parks and gardens](#)

To prevent the harmful impact of cigarette butts on the environment, you have to think about what to do with them during the design phase of your green space!

- [The challenges of water management in green space maintenance](#)

Some tips on how to manage a resource as precious as water when watering green spaces sustainably.

- [Biological treatments to fight processionary caterpillars: an expert's view](#)

Processionary caterpillars can cause serious damage to trees, man and animals. Fortunately, you can get rid of them in an ecological way.

- [How to care for urban green spaces without chemicals](#)

The French energy transition law makes it obligatory to care for green spaces without chemical plant health products... But alternatives exist!

- [Using weeds in landscape planning](#)

Weeds are often victims of their reputation. However, they can also be useful!

- [The fight against invasive species must be collective – and sustainable!](#)

To better understand how to fight invasive species in an ecological way, we talked to Bioline Agroscience, winner of a Paysalia Innovations Trophy in 2017.

- [Animal grazing: the best animals to choose for green space maintenance](#)

Genuine ecological mowers, animals contribute effectively to green spaces maintenance. Provided you choose the right animals!

## 12 Trendy Ways to Build a Green Space in Home

DOLA RC 16 February, 2018

Many city homes in Malaysia no longer have sufficient space to design a beautiful garden around the house. Some of you living in the bigger cities already know how difficult it is to procure a small piece of land to build a house. The best you can do is to opt for a [terrace home](#) or a comfortable apartment for yourself and your family members. However, none of these should prevent you from building a green space inside your home, on the terrace or in the front yard of your house. We share with you all the necessary inspirations to design a green space like that.

We print that.

Dining area on a tiny balcony

ANGELICA HOFFMANN ARQUITETURA E...

Okay, so you may be thinking that you only have a very narrow balcony. Building a stylish dining area in this space is out of question. Not exactly! Have a look at this glamorous balcony décor. It boasts of trendy seating arrangements and a small kitchenette.

Romantic balcony décor

The soft creamy white tone of this balcony makes it look utterly romantic. It is decorated with a cosy sofa, ottomans, a simple dining table and plush rugs. The space acts as an extension of the living room and allows the owners a panoramic view of the

acts as an extension of the living room and allows the owners a panoramic view of the surroundings.

Atrium outside home office

Atriums were once a characteristic feature of the classical homes. Space crunch in modern buildings have made them nearly obsolete. The architect of this house used this tiny space just outside the home office to build a chic atrium.

Green living in the city

Green living in the city could be very much a reality. Use the empty spaces on the terrace, balcony, backyard, basement or under the staircases to [design a small garden](#). You may even design a beautiful rock garden in your home. Place cosy reclining chairs or sofas in this area. Soak in the beauty of nature whenever you have a bit of time for yourself.

An oasis of calmness and charm

This space is soon going to become the most favourite corner of your home provided you take little care in decorating it in style. Opt for plenty of potted plants that thrive in all weather. Ferns, orchids, various palm species, peace lily, box wood, bougainvillea, jasmine etc are plants that grow easily and are easy to maintain. You may also use bonsais to decorate the space. Design a comfortable seating area and brighten up the space with outdoor lighting fixtures.

Green zone on the rooftop

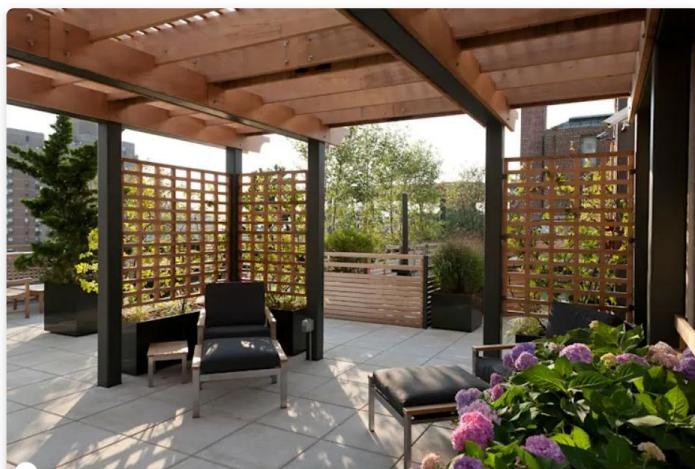

PLACE DES FLEURS

By creating a green zone on the rooftop you help improve the insulation of the interiors of your home, make it more energy efficient, eco-friendly and sustainable. It helps improve the value of your home. Needless to say, you also add to the beauty of the environment.

#### Arbour on the terrace

Building an arbour on the terrace will help you create a shade of a sort and will keep the space habitable during the long summer months. Wooden pergolas can be installed on the terrace. You may buy pre-fabricated pergolas for your home as well. A beautiful living area like this will be highly appreciated by your family members and friends.

Check out [these beautiful pergolas](#) and select a design that suits your home.

## Which of these trendy green zones do you find most relaxing?

## 4 Tips For Creating A Green Office Space

INTERIOR DESIGN

A lot of offices and businesses have recently made the decision to go green and transform into an eco-friendly environment. If you are wanting to re-generate or redesign your office space to something which is better for the environment, then you may find yourself running into a few misconceptions that come with green offices.

One of the most common myths is that eco-friendly offices aren't as attractive or appealing, but going green doesn't mean that you have to compromise on your aesthetics. Interior designers and architects are always finding new ways to create functional offices in a responsible way. As time goes on, there are more and more examples of green interior design and architecture which maintains both style and functionality. So, if you are looking for some green inspiration for your office space, then here are 4 ideas that you can incorporate into your designs.

### Use Sustainable Materials

CADdetails  
Project  
Gallery

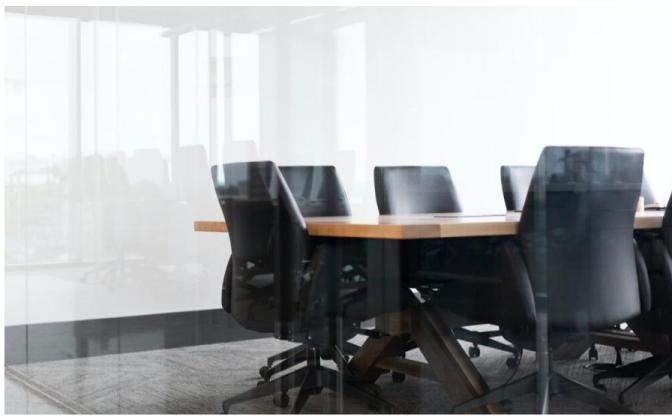

Image © unsplash

Furniture manufacturers and designers are finding new and creative ways to repurpose old pieces of furniture to make proper and effective use of the recyclable materials. By choosing recycled or repurposed materials, you are creating a solution for eco-friendly office space. This, in turn, protects the environment, saves your business money and is far better than choosing un-recyclable pieces of furniture which are sure to end up in landfill.

A powerful and effective way to make your office eco-friendly and stylish is to create a green or living wall. These walls are covered with plants and flowers which are grown with a hydroponics system. This type of feature is perfect for any business which wants to make a bold and strong visual statement within their office, whilst also getting all the benefits of the plants and flowers used.

A beautiful green wall can totally transform the look of any office and adds in natural texture, style and colour which doesn't go out of fashion. If you are unable to invest in a whole green wall, then even just the addition of small plants around the office or on desks is enough to brighten up the workplace and provide better air quality which is a very important component when it comes to sustainable and healthy office environments. The air quality in office spaces is essential for the well-being of your employees, so if a green wall doesn't work for your office space, look at installing [industrial ventilation systems](#) instead.

### Reorganise Your Printing Room

On average, each employee uses around 50 sheets of paper a day. With this in mind, try to encourage your employees or coworkers to print less. Adding small signatures to the bottom of your emails, such as "Think about the environment before you print this message" is a small step towards solving a huge problem and is one which can easily be passed between companies via your emails.

Having an organised printing room can easily reduce paper consumption in your office. Instead of printing single sided, encourage the people in the office to use double-sided printing as an alternative. Use a tray to store old or unwanted pieces of paper and ask your employees or colleagues to use these as scraps for notes or phone call details.

### Revitalise Your Kitchen Area

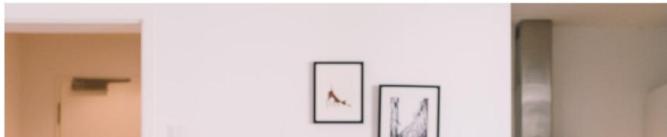

Image © unsplash

Kitchens are one of the most used spaces in the office, however, they can also be a place for a lot of unrecyclable waste to gather. Trying to curb these habits is not only down to you but to your colleagues and employees, too.

If you notice that a lot of your co-workers bring in to-go coffee on their way into the office, try and encourage them to invest in reusable travel cups instead. Often, these coffee cups are unable to be recycled due to the lining of plastic which prevents the drink from leaking. You could even purchase branded mugs for employees to use, or buy a coffee machine which consumes less energy than a kettle or hot tap.

A lot of snacks and meals come in plastic material, which also can't be recycled, but due to their convenience factor are a huge hit with those on the go. Having snacks, such as fruit, nuts and vegetables, available may encourage workers to eat those instead of buying plastic-laden packs of crisps or sweets. You could also have an array of reusable lunch boxes or eco-friendly food wrap for the office to use for storage and heating in place of disposable plastic wrapping.

Eco-friendly offices don't need to be boring or bland and, with the growing popularity of eco-friendly designs and practices, there are now more options than ever to create a green space which is beneficial for both you, your workers and the environment.

## Landscape Designers Pick Modern Furniture For Green Spaces

By J.S. Marcus Special to The Wall Street Journal

June 15, 2007 12:01 am ET

SHARE

PRINT TEXT

Summer officially starts next week, and everyone is heading outdoors until fall.

But not all choices work. Furniture designed for the outdoors must compete with nature, architecture and the climate, says Munich-based furniture and product designer Konstantin Grcic. "It requires something different."

## Corrugated Cardboard Love

Eco Furniture for Green Spaces is all the rage, and this bio-degradable upcycled and re-used corrugated cardboard accent furniture doesn't disappoint. This table can be used vertically or horizontally, and boasts a stylish built in magazine rack.

diseño cartonero  
hecho en argentina

Displayed at this year's Argentinian Pure Design Expo "Feria Puro Diseño 2010", these unique pieces are sure to please even the most discerning green tastes. The designer, Buenos Aires' Santiago Morahan, works with urban garbage collectors and buys the old cardboard boxes from them, then turns them into art.

Urban garbage collectors get paid more from the designer than they would from a recycling factory, so not only is his amazing artwork eco-conscious, but it is also helping to create a better wage for people who, essentially, create their own jobs collecting cardboard from the garbage. Ecologically green, socially just *and* creative? Where do I sign up?

## **United States Patent and Trademark Office (USPTO)**

### **USPTO OFFICIAL NOTICE**

Office Action (Official Letter) has issued  
on August 25, 2022 for  
**U.S. Trademark Application Serial No. 97120641**

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action in order to avoid your application abandoning. Follow the steps below.

- (1) [\*\*Read the Office action\*\*](#). This email is NOT the Office action.
- (2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS). Your response must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response period. Otherwise, your application will be [abandoned](#). See the Office action itself regarding how to respond.
- (3) **Direct general questions** about using USPTO electronic forms, the USPTO [website](#), the application process, the status of your application, and whether there are outstanding deadlines to the [Trademark Assistance Center \(TAC\)](#).

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

## **GENERAL GUIDANCE**

- [\*\*Check the status of your application periodically\*\*](#) in the [Trademark Status & Document Retrieval \(TSDR\)](#) database to avoid missing critical deadlines.
- [\*\*Update your correspondence email address\*\*](#) to ensure you receive important USPTO notices about your application.
- [\*\*Beware of trademark-related scams\*\*](#). Protect yourself from people and companies that may try to take financial advantage of you. Private companies may call you and pretend to be the USPTO or may send you communications that resemble official USPTO documents to trick you. We will never request your credit card number or social security number over the phone. And all official USPTO correspondence will only be emailed from the domain “@uspto.gov.” Verify the correspondence originated from us by using your Serial Number in our database, [TSDR](#), to confirm that it appears under the “Documents” tab, or contact the [Trademark Assistance Center](#).

- **Hiring a U.S.-licensed attorney.** If you do not have an attorney and are not required to have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
