### **United States Patent and Trademark Office (USPTO) Office Action (Official Letter) About Applicant's Trademark Application**

**U.S. Application Serial No.** 97118550

**Mark:** NACREH MOTHER OF PEARL

**Correspondence Address:**

YOHAN LEE  
LAW OFFICES OF YOHAN LEE  
5681 BEACH BLVD., SUITE 200  
BUENA PARK CA 90621 UNITED STATES

**Applicant:** fun-store

**Reference/Docket No.** N/A

**Correspondence Email Address:** [ylee@yleelaw.com](mailto:ylee@yleelaw.com)

**NONFINAL OFFICE ACTION**

**The USPTO must receive applicant's response to this letter within six months of the issue date below or the application will be abandoned.** Respond using the Trademark Electronic Application System (TEAS). A link to the appropriate TEAS response form appears at the end of this Office action.

**Issue date:** August 25, 2022

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issues below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

## **SUMMARY OF ISSUES:**

- Prior-Filed Applications Advisory
- Clarification of Applicant's Entity Type Required
- Disclaimer Required
- Amended Description of Mark Required
- Amended Identification of Goods Required

## **PRIOR-FILED APPLICATIONS ADVISORY**

The trademark examining attorney has searched the USPTO database of registered and pending marks and has found no conflicting registered marks that would bar registration under Trademark Act Section 2(d). 15 U.S.C. §1052(d); TMEP §704.02. However, marks in prior-filed pending applications may present a bar to registration of applicant's mark.

The filing date of pending U.S. Application Serial Nos. 90144342, 90144337, and 90144342 precedes applicant's filing date. See attached referenced applications. If one or more of the marks in the referenced applications register, applicant's mark may be refused registration under Trademark Act Section 2(d) because of a likelihood of confusion with the registered mark(s). *See* 15 U.S.C. §1052(d); 37 C.F.R. §2.83; TMEP §§1208 *et seq.* Therefore, upon receipt of applicant's response to this Office action, action on this application may be suspended pending final disposition of the earlier-filed referenced applications.

In response to this Office action, applicant may present arguments in support of registration by addressing the issue of the potential conflict between applicant's mark and the mark in the referenced applications. Applicant's election not to submit arguments at this time in no way limits applicant's right to address this issue later if a refusal under Section 2(d) issues.

**Applicant must respond to the requirements below.**

## **CLARIFICATION OF APPLICANT'S ENTITY TYPE REQUIRED**

Applicant is identified in the application as a sole proprietorship named "fun-store", organized in the

Republic of Korea. In addition to the applicant name and country of organization provided, however, applicant must also specify the name and national citizenship of the individual person who is the sole proprietor. 37 C.F.R. §2.32(a)(3)(v); TMEP §803.03(a).

The following format for identifying a sole proprietorship should be used: “fun-store, a Republic of Korea sole proprietorship, composed of <name of individual>, a citizen of <country of citizenship>.” See 37 C.F.R. §2.32(a)(3)(v); TMEP §803.03(a). The name of the sole proprietorship and the name of the individual can be the same.

If, rather than a sole proprietorship, applicant is instead an individual person doing business under an assumed business name, then the following format should be used: “<name of individual>, a citizen of <country of citizenship>, doing business as fun-store.” TMEP §§803.02(a), 803.04.

## **DISCLAIMER REQUIRED**

Applicant must disclaim the wording “NACRE” and "MOTHER OF PEARL" because it is merely descriptive of a feature or characteristic of applicant’s goods. See 15 U.S.C. §1052(e)(1); *DuoProSS Meditech Corp. v. Inviro Med. Devices, Ltd.*, 695 F.3d 1247, 1251, 103 USPQ2d 1753, 1755 (Fed. Cir. 2012); TMEP §§1213, 1213.03(a).

The attached evidence from *Lexico* shows "NACRE" means "mother-of-pearl"; and "MOTHER OF PEARL" means "a smooth shining iridescent substance forming the inner layer of the shell of some mollusks, especially oysters and abalones, used in ornamentation." Thus, the wording merely describes applicant’s goods because the goods contain or are made of a smooth shining iridescent substance forming the inner layer of the shell of some mollusks, especially oysters and abalones, used in ornamentation. See also the attached evidence from *Editorialist*, *Dusty Old Thing*, *Etsy*, and *Ebay* showing third-parties using the wording "NACRE" and/or "MOTHER OF PEARL" to describe goods, including those similar to that identified by applicant, as being made of a smooth shining iridescent substance forming the inner layer of the shell of some mollusks.

Although applicant uses the wording "NACREH" in applicant's mark, the attached evidence from Lexico shows that this spelling variant does not appear in the dictionary and instead suggests the spelling "NACRE". Thus, the wording "NACREH" must appear in its correct spelling, i.e., "NACRE" in the disclaimer. See *In re Omaha Nat'l Corp.*, 819 F.2d 1117, 1119, 2 USPQ2d 1859, 1861 (Fed. Cir. 1987); *In re Carlson*, 91 USPQ2d 1198, 1203 (TTAB 2009); TMEP §1213.08(c).

A “disclaimer” is a statement in the application record that an applicant does not claim exclusive rights to an un registrable component of the mark. See *Schwarzkopf v. John H. Breck, Inc.*, 340 F.2d 978, 979-80, 144 USPQ 433, 433 (C.C.P.A. 1965); TMEP §1213. A disclaimer does not physically remove the disclaimed matter from the mark or otherwise affect the appearance of the mark. See *Schwarzkopf v. John H. Breck, Inc.*, 340 F.2d at 979, 144 USPQ2d at 433; TMEP §1213.

Applicant may respond to this issue by submitting a disclaimer in the following format:

**No claim is made to the exclusive right to use "NACRE" and "MOTHER OF PEARL" apart from the mark as shown.**

For an overview of disclaimers and instructions on how to provide one using the Trademark Electronic

Application System (TEAS), see the [Disclaimer webpage](#).

If applicant does not provide the required disclaimer, the USPTO may refuse to register the entire mark. *See In re Stereotaxis Inc.*, 429 F.3d 1039, 1041, 77 USPQ2d 1087, 1089 (Fed. Cir. 2005); TMEP §1213.01(b).

## **AMENDED DESCRIPTION OF MARK REQUIRED**

Applicant must submit an amended description of the mark because the current one uses broad, vague language that does not accurately describe the mark. 37 C.F.R. §2.37; *see* TMEP §§808.01, 808.02. Descriptions must be accurate and identify all the literal and design elements in the mark. *See* 37 C.F.R. §2.37; TMEP §808.02. In this case, the description is vague because the location of the sea shell, the wording "NACREH" and the wording "MOTHER OF PEARL" in relation to each other is not clear.

The following description is suggested, if accurate:

**The mark consists of a design of a sea shell to the left of the stylized wording "NACREH" and "MOTHER OF PEARL". The wording "MOTHER OF PEARL" has a long horizontal line to the immediate left and a long horizontal line to the immediate right, all of which appears below "NACREH".**

## **AMENDED IDENTIFICATION OF GOODS REQUIRED**

Applicant's mark includes the wording "MOTHER OF PEARL" and "NACREH" which appears to be an intentional misspelling of "NACRE" which means "mother of pearl". This wording indicates that applicant's goods have (or will have) the following feature or characteristic: be made of mother of pearl.

This feature or characteristic is considered desirable for applicant's goods because mother of pearl is an organic-inorganic composite material, of which pearls are also made of, and is considered to be ornamentation material that is strong, resilient, and one-of-a-kind as no two pieces of mother of pearl are identical. See the attached evidence from *Editorialist* and *Dusty Old Thing*. However, if some or all of the goods do not (or will not) in fact have or exhibit this feature or characteristic, then registration may be refused because the mark consists of or includes deceptive matter in relation to the identified goods. *See* 15 U.S.C. §1052(a); *In re Budge Mfg. Co.*, 857 F.2d 773, 8 USPQ2d 1259 (Fed. Cir. 1988); TMEP §1203.02-.02(b).

To avoid such refusal, applicant may amend the identification to specify that the goods possess this relevant feature or characteristic. *See* TMEP §§1203.02(e)(ii), (f)(i), 1402.05 *et seq.* However, merely amending the identification to exclude goods with the named feature or characteristic will not avoid a deceptiveness refusal. TMEP §1203.02(f)(i).

Applicant is advised that the Office construes the wording "made in significant part of" as indicating that the goods contain a sufficient amount of the named ingredient or material composition to meet the standard for use of the term in the relevant industry. *See* TMEP §§1203.02(f)(i).

Applicant may substitute the following wording, if accurate (suggested language in **bold**):

International Class 18: Business card cases; Business card holders in the nature of card cases; Name card cases; **all of the foregoing made in whole or significant part of mother of pearl**

Applicant may amend the identification to clarify or limit the goods, but not to broaden or expand the goods beyond those in the original application or as acceptably amended. *See* 37 C.F.R. §2.71(a); TMEP §1402.06. Generally, any deleted goods may not later be reinserted. *See* TMEP §1402.07(e).

For assistance with identifying and classifying goods and services in trademark applications, please see the USPTO's online searchable *U.S. Acceptable Identification of Goods and Services Manual*. *See* TMEP §1402.04.

## RESPONSE GUIDELINES

Please call or email the assigned trademark examining attorney with questions about this Office action. Although an examining attorney cannot provide legal advice, the examining attorney can provide additional explanation about the requirements in this Office action. *See* TMEP §§705.02, 709.06.

The USPTO does not accept emails as responses to Office actions; however, emails can be used for informal communications and are included in the application record. *See* 37 C.F.R. §§2.62(c), 2.191; TMEP §§304.01-.02, 709.04-.05.

## RESPONSE GUIDANCE

- **Missing the response deadline to this letter will cause the application to abandon.** The response must be received by the USPTO before midnight **Eastern Time** of the last day of the response period. TEAS maintenance or unforeseen circumstances could affect an applicant's ability to timely respond.
- **Responses signed by an unauthorized party** are not accepted and can **cause the application to abandon.** If applicant does not have an attorney, the response must be signed by the individual applicant, all joint applicants, or someone with legal authority to bind a juristic applicant. If applicant has an attorney, the response must be signed by the attorney.

- If needed, **find [contact information for the supervisor](#)** of the office or unit listed in the signature block.

## What Is Mother of Pearl? Everything You Need to Know About This Iridescent Material

We're dropping some real pearls of wisdom.

## ALWAYS ICONIC

THE 7 ICONIC CARTIER DESIGNS  
TO COVET FOREVER.

*Cartier*

Courtesy Of Ippolita

BY EMMA REYNOLDS 

LAST UPDATED FEB 13, 2022

You've seen mother of pearl more often than you think. It appears in small home trinkets like jewelry trays, watch dials, buttons, guitar parts, caviar spoons, and, of course, jewelry. However, what most don't know is that mother of pearl and pearls, though they are made of the same substance, have different qualities, values, and uses.

## What Is Mother of Pearl?

Mother of pearl, or nacre, is the iridescent substance that forms inside the shell of many mollusks (think mussels and pearl oysters). As a defense mechanism, mollusks secrete nacre against irritants and abrasions that make their way into the shell. Nacre then forms along the surface of the shell, resulting in the shiny, iridescent finish known as mother of pearl. It is an organic-inorganic composite material, made of aragonite, a type of calcium carbonate, of which pearls are also made of, and is thereby strong, resilient, and iridescent. The best part? No two pieces of mother of pearl are identical, so it's used to make unique, one-of-a-kind pieces. You'll most often find it as a decorative inlay on a watch dial or on a piece of jewelry, and is soft enough to be carved and engraved, further enhancing its uniqueness.

## How Are Mother of Pearl and Pearls Different?

Most mollusks produce mother of pearl, but only very few mollusks produce pearls. Mother of pearl can be harvested from oysters, clams, freshwater mussels, and abalone, to name a few, and each offer slightly different color variations. For example, abalone, found in South Africa, Australia, New Zealand, and Japan, produce some of the world's most lustrous and colorful varieties of mother of pearl, like blue, green, and purple. Abalone, however, do not produce pearls. Because of the low percentage of mollusks that produce pearls, pearls are more valuable than mother of pearl.

Like pearls, mother of pearl is typically cream, white, or off-white, but can also be found as gray, silver, yellow, black, blue-green, purple, and red in rarer varieties. The color depends on the type of mollusk from

which it's found. Because mother of pearl covers larger areas in the shell, it's often used for larger objects, like watch faces, whereas pearls are round and made into beads.

## A Brief Mother of Pearl History Lesson

Mother of pearl dates back to ancient times and is said to have been used in Mesopotamia, India, and China, primarily by ruling classes. Pieces have even been found in ancient Egyptian pyramids and tombs dating back to 4,200 B.C. Back then, it was used for many of the same purposes as it is today, with various countries known for using it in different ways. For example, in Bethlehem, craftsmen carved religious souvenirs with mother of pearl, while in Thailand and within the Ottoman Empire, it was used in architecture and inlaid in doors, windows, and thrones. In the Victorian era, it became popular for buttons and as outfit embellishments. Mother of pearl was most popular in the 19th century when used for card cases, snuff boxes, inkwells, and more, but many cultures used mother of pearl as a symbol of good luck and prosperity.

Today, mother of pearl is most often seen on watch dials, but several jewelry designers create beautiful fine jewelry made of this magnificent, iridescent material. Below, find 15 of the most gorgeous mother of pearl jewelry styles that are just as unique as the wearer.

Q **Melanie Georgacopoulos Exposed Pearl Necklaces**

## Exposed Pearl Nacre Bangle

Melanie Georgacopoulos' background in sculpture led her to the world of jewelry, and she uniquely combines the organic beauty of pearl and mother of pearl in nearly every piece. Like a work of art for your wrist, the Exposed Pearl Nacre Bangle features recycled 18K white gold with white mother of pearl and a 13mm white South Sea pearl. This dynamic piece sits perfectly on the wrist and has an asymmetrical, artistic touch.

## Ippolita Rock Candy Sofia Necklace

If a necklace were made to shine, this is it. Created using mother of pearl, moonstone, and quartz, a beautiful milky white, off-white, and gold color story comes to life in this chic, 39.5-inch necklace. Wear it long or wrap it around twice for a layered look. Like most of Ippolita's jewelry, each stone has an organic shape and is handcrafted on an 18K gold strand.

## Q Milamore Yobitsugi Mother of Pearl Earrings

In Japanese, *yobi* signifies creating, while *tsugi* means connecting, and these patchwork earrings, handcrafted in Japan, are a beautiful display of both. The two earrings are completely different, but rest along the lobes like a work of art. Each has round pavé diamonds set into a Kintsugi line. Kintsugi is the ancient Japanese restoration method for ceramics and symbolizes making art and meaning out of something damaged or broken.

# Antique Spotlight: Mother Of Pearl

Antique Spotlight: Mother Of Pearl

DUSTY OLD THING

We all know and recognize that luminescence when we see it. Pearls have been used for thousands of years in jewelry, clothing, furniture and home decor. While there's always talk of natural versus cultured, and fresh versus salt water pearls, we decided to take a closer look at mother of pearls and their prominent role in cultures around the world. Read on to learn about mother of pearl, collecting pearls, and how to spot the real thing when you see it...

from: Bridget Borchert: "Lovely old hand carved mother of pearl pendant and long m.o.p. bead necklace. This came from India although I am unsure if it was made there. A gift from a friend whose grandparents and mother lived in India from about 1925 to 1950. They were in the tea business. Highly detailed carving."

## **Creation**

Pearls have been a part of cultures around the world for thousands of years, from ancient Mesopotamia to Polynesia to England and the U.K. Obviously a preferred choice for jewelry, making up endless strands of pearl necklaces and bracelets, pearls and mother of pearl also feature heavily in musical instruments and furniture: inlaid elaborately into tabletops, mirrors and chairs.

Mother of Pearl or Nacre (derived from the Arabic word for shell, "naqqarah") is the organic, iridescent material that makes up the inside lining of various mollusks' shells, such as oysters, mussels and abalone. The outer layer of a natural pearl is made of this material and that's where it gets its recognizable sheen. The phrase "mother of pearl" can refer to either the pearl or the shell of the creature in which it's found. Pearls are created when a tiny particle of sand or bone is trapped inside an oyster and the organism secretes calcium carbonate that grows and hardens around the piece of sand. As long as the pearl is nestled

in the oyster, covered by calcium carbonate and the soft, shimmery outer layer, the pearl continues to grow. Some countries cherish the pearl, whereas others worship the mother of pearl shell lining, considered the source and mother of the pearl's beauty.

from: Lorrie Barker: "Can anyone tell me what these are ? They were in some things of my grandmothers, and probably belonged to her mother. The stamp on them says "patented April 26, '04. I assume that's 1904. The stone looks to be Mother of Pearl....maybe Moonstone."

"Natural pearls" can be found in either fresh water (rivers in England and Ireland) or salt water (Persian Gulf) although salt water pearls are more highly sought after and also refer to

Water or ocean salt/through salt water pearls are more highly sought after and also cost more harvested pearls, since they're still grown and created in a mollusk. As with other gemstones, searching for mother of pearl is something that is time and labor-intensive, requiring divers to go down and retrieve a large selection of mussels, oysters and abalone; this made them all the more valuable. It wasn't until the early 20<sup>th</sup> century that two Japanese men (and later Kokichi Mikimoto) came up with a new way of harvesting pearls. Cultured pearls are the result of inserting particles manually into oysters and instigating the growth of a pearl. It allows for controlled mass production of pearls that otherwise would be impossible.

from: Diane Scott: "My father gave this to my mother (both deceased) about 1956. My mother loved pearls. It is "A Jewelerart CREATION". I believe my father bought it in either Quebec City or Montreal. My mother gave it to me shortly before she died. I wear it at all special occasions. I have tried to find info on it but have been unsuccessful."

An advertisement for the Chevrolet Blazer EV. The top half features the text "REIMAGINE THAT." and "Explore THE FIRST-EVER ALL-ELECTRIC BLAZER EV". Below this is a red Chevrolet Blazer EV driving on a road. To the right is the Chevrolet bowtie logo with the word "CHEVROLET" and a small link to "\*Important Info".

#### Distinguishing Between Real And Fake

Mother of pearl jewelry is timeless and classic. If you're looking for antique pearls, their popularity does make the search a little more complex, since you have to be able to distinguish the real from the fake. Below, some pointers on how to search for vintage natural pearls:

1. Hold a pearl between your thumb and forefinger and rub it from side to side against the top, flat part of one of your upper teeth. Be careful not to rub too hard, since you don't want to scratch the pearl and try not to touch it to your gums. Real pearls have imperfect finishes, so it should feel gritty and sandy against your tooth. If you don't feel any imperfections and it's totally smooth, you're looking at an imitation pearl.
2. If you don't want or aren't able to rub the pearl against your teeth, gently rub two pearls from the same set against one another. Again, because of their surface imperfections there should be friction between the pearls and a light residue that's left from rubbing them.
3. The least invasive of the authenticity tests is to have a set of certified natural pearls on hand to compare to. If you look closely, you'll be able to see the imperfections and recognize that imitation pearls are too smooth and perfect in comparison.

When you're looking, try to find a certified pearl dealer, but be open to looking at estate sales or flea markets. You never know what you might find and now you have the tools to recognize pieces of value!

[@ What's 'Najeonchilgi'?](#)

The najeon refers to the technical artistic Traditional crafts of Korea used to decorate articles with mother-of-pearl. Lacquerware inlaid with mother-of-pearl is made of a shell grown in a deep sea and a wood grown on a high mountain so the spirit of a high mountain and the energy of a deep sea are mixed to make yin-yang harmony.

Korean mother-of-pearl made from the shining, unchangeable beauty of pearl oyster or abalone, is considered to be the jewel of the Orient.

There is a legend that once it is kept by home, family get to harmonize with each other, their positions go high, and mind and properties become affluent. Therefore, it has been regularly used by royal family or nobility in the Orient from old times.

[@ Product Description](#)

This card holder can double as a portable travel wallet.

Carry essential ID and credit/debit cards in a slim metal wallet.

Already in a nice box, ready to give to someone special.

Birthday's, Christmas stocking stuffer, graduations, new jobs, career promotions.

Durable metal case with an easy to open.

## **United States Patent and Trademark Office (USPTO)**

### **USPTO OFFICIAL NOTICE**

Office Action (Official Letter) has issued  
on August 25, 2022 for  
**U.S. Trademark Application Serial No. 97118550**

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action in order to avoid your application abandoning. Follow the steps below.

- (1) [\*\*Read the Office action.\*\*](#) This email is NOT the Office action.
- (2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS). Your response must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response period. Otherwise, your application will be [abandoned](#). See the Office action itself regarding how to respond.
- (3) **Direct general questions** about using USPTO electronic forms, the USPTO [website](#), the application process, the status of your application, and whether there are outstanding deadlines to the [Trademark Assistance Center \(TAC\)](#).

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

## **GENERAL GUIDANCE**

- [\*\*Check the status of your application periodically\*\*](#) in the [Trademark Status & Document Retrieval \(TSDR\)](#) database to avoid missing critical deadlines.
- [\*\*Update your correspondence email address\*\*](#) to ensure you receive important USPTO notices about your application.
- [\*\*Beware of trademark-related scams\*\*](#). Protect yourself from people and companies that may try to take financial advantage of you. Private companies may call you and pretend to be the USPTO or may send you communications that resemble official USPTO documents to trick you. We will never request your credit card number or social security number over the phone. And all official USPTO correspondence will only be emailed from the domain “@uspto.gov.” Verify the correspondence originated from us by using your Serial Number in our database, [TSDR](#), to confirm that it appears under the “Documents” tab, or contact the [Trademark Assistance Center](#).

- **Hiring a U.S.-licensed attorney.** If you do not have an attorney and are not required to have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
