United States Patent and Trademark Office (USPTO)
Office Action (Official Letter) About Applicant's Trademark Application

U.S. Application Serial No. 97119320

Mark: LILINUS

Correspondence Address:

SHAN ZHU
SHAN ZHU LAW GROUP, P.C.
3511-B FARRINGTON ST.
#335
FLUSHING NY 11354 UNITED STATES

Applicant: Wu Jialin

Reference/Docket No. Sha2005

Correspondence Email Address: shan.zhulaw@gmail.com

NONFINAL OFFICE ACTION

The USPTO must receive applicant's response to this letter within six months of the issue date below or the application will be abandoned. Respond using the Trademark Electronic Application System (TEAS). A link to the appropriate TEAS response form appears at the end of this Office action.

Issue date: August 25, 2022

Introduction

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

Summary of Issues

- Section 2(d) - Likelihood of Confusion Refusal

Section 2(d) - Likelihood of Confusion Refusal

Registration of the applied-for mark is refused because of a likelihood of confusion with the mark in U.S. Registration No. 4505230. Trademark Act Section 2(d), 15 U.S.C. §1052(d); *see* TMEP §§1207.01 *et seq.* See the attached registration.

Trademark Act Section 2(d) bars registration of an applied-for mark that is so similar to a registered mark that it is likely consumers would be confused, mistaken, or deceived as to the commercial source of the goods and/or services of the parties. *See* 15 U.S.C. §1052(d). Likelihood of confusion is determined on a case-by-case basis by applying the factors set forth in *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973) (called the “*du Pont* factors”). *In re i.am.symbolic, llc*, 866 F.3d 1315, 1322, 123 USPQ2d 1744, 1747 (Fed. Cir. 2017). Any evidence of record related to those factors need be considered; however, “not all of the *DuPont* factors are relevant or of similar weight in every case.” *In re Guild Mortg. Co.*, 912 F.3d 1376, 1379, 129 USPQ2d 1160, 1162 (Fed. Cir. 2019) (quoting *In re Dixie Rests., Inc.*, 105 F.3d 1405, 1406, 41 USPQ2d 1531, 1533 (Fed. Cir. 1997)).

Although not all *du Pont* factors may be relevant, there are generally two key considerations in any likelihood of confusion analysis: (1) the similarities between the compared marks and (2) the

relatedness of the compared goods and/or services. *See In re i.am.symbolic, llc*, 866 F.3d at 1322, 123 USPQ2d at 1747 (quoting *Herbko Int'l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1164-65, 64 USPQ2d 1375, 1380 (Fed. Cir. 2002)); *Federated Foods, Inc. v. Fort Howard Paper Co.*, 544 F.2d 1098, 1103, 192 USPQ 24, 29 (C.C.P.A. 1976) (“The fundamental inquiry mandated by [Section] 2(d) goes to the cumulative effect of differences in the essential characteristics of the goods [or services] and differences in the marks.”); TMEP §1207.01.

Applicant has applied to register the mark **LILINUS** in standard characters for “Earphones; Mousepads; Cases for mobile phones; Cell phone battery chargers for use in vehicles; Cell phone cases; In-car telephone handset cradles; Lighting control panels; Loud speakers; Plug adaptors; Power cables; Power wires; Protective covers and cases for cell phones, laptops and portable media players; Waterproof cases for smart phones; Wireless chargers; Computer storage devices, namely, blank flash drives” in International Class 9.

Registrant’s mark is **LILIN** with a design for “Cameras; digital video recorders; camera housings; camera brackets; internet protocol cameras; circumrotate platforms for use in cameras; [video monitors;] surveillance cameras; [matrix switchers; scanner;] outdoor pan, namely, a rotational camera drive for rotationally activating a camera in a tilt rotation about a horizontal axis and a scan rotation about a vertical axis” in International Class 9.

Similarity of the Marks

Marks are compared in their entireties for similarities in appearance, sound, connotation, and commercial impression. *Stone Lion Capital Partners, LP v. Lion Capital LLP*, 746 F.3d 1317, 1321, 110 USPQ2d 1157, 1160 (Fed. Cir. 2014) (quoting *Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondee En 1772*, 396 F.3d 1369, 1371, 73 USPQ2d 1689, 1691 (Fed. Cir. 2005)); TMEP §1207.01(b)-(b)(v). “Similarity in any one of these elements may be sufficient to find the marks confusingly similar.” *In re Inn at St. John’s, LLC*, 126 USPQ2d 1742, 1746 (TTAB 2018) (citing *In re Davia*, 110 USPQ2d 1810, 1812 (TTAB 2014)), *aff’d per curiam*, 777 F. App’x 516, 2019 BL 343921 (Fed. Cir. 2019); TMEP §1207.01(b).

Here, applicant’s mark, **LILINUS**, is confusingly similar to the registered mark, **LILIN**.

The two marks are identical except for the addition of the wording "US" at the end of the applied-for mark. Consumers are generally more inclined to focus on the first word, prefix, or syllable in any trademark or service mark. *See Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondee En 1772*, 396 F.3d 1369, 1372, 73 USPQ2d 1689, 1692 (Fed. Cir. 2005) (finding similarity between VEUVE ROYALE and two VEUVE CLICQUOT marks in part because “VEUVE . . . remains a ‘prominent feature’ as the first word in the mark and the first word to appear on the label”); *Century 21 Real Estate Corp. v. Century Life of Am.*, 970 F.2d 874, 876, 23 USPQ2d 1698, 1700 (Fed Cir. 1992) (finding similarity between CENTURY 21 and CENTURY LIFE OF AMERICA in part because “consumers must first notice th[e] identical lead word”); *see also In re Detroit Athletic Co.*, 903 F.3d 1297, 1303, 128 USPQ2d 1047, 1049 (Fed. Cir. 2018) (finding “the identity of the marks’ two initial words is particularly significant because consumers typically notice those words first”).

In this case, consumers will focus on the first part of the applied-for mark, which is identical to the entirety of the registered mark.

While the registered mark has a design component, when evaluating a composite mark consisting of

words and a design, the word portion is normally accorded greater weight because it is likely to make a greater impression upon purchasers, be remembered by them, and be used by them to refer to or request the goods and/or services. *In re Aquitaine Wine USA, LLC*, 126 USPQ2d 1181, 1184 (TTAB 2018) (citing *In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012)); TMEP §1207.01(c)(ii). Thus, although marks must be compared in their entireties, the word portion is often considered the dominant feature and is accorded greater weight in determining whether marks are confusingly similar, even where the word portion has been disclaimed. *In re Viterra Inc.*, 671 F.3d at 1366-67, 101 USPQ2d at 1911 (citing *Giant Food, Inc. v. Nation's Foodservice, Inc.*, 710 F.2d 1565, 1570-71, 218 USPQ2d 390, 395 (Fed. Cir. 1983)).

Because the dominant textual portion of the registered mark is so visually similar to the applied-for mark, the marks create an overall similar commercial impression.

Therefore, because the marks look similar and create the same commercial impression, the marks are considered similar for likelihood of confusion purposes.

Relatedness of the Goods

The goods are compared to determine whether they are similar, commercially related, or travel in the same trade channels. See *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369-71, 101 USPQ2d 1713, 1722-23 (Fed. Cir. 2012); *Hercko Int'l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1165, 64 USPQ2d 1375, 1381 (Fed. Cir. 2002); TMEP §§1207.01, 1207.01(a)(vi).

The compared goods need not be identical or even competitive to find a likelihood of confusion. See *On-line Careline Inc. v. Am. Online Inc.*, 229 F.3d 1080, 1086, 56 USPQ2d 1471, 1475 (Fed. Cir. 2000); *Recot, Inc. v. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1898 (Fed. Cir. 2000); TMEP §1207.01(a)(i). They need only be “related in some manner and/or if the circumstances surrounding their marketing are such that they could give rise to the mistaken belief that [the goods and/or services] emanate from the same source.” *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369, 101 USPQ2d 1713, 1722 (Fed. Cir. 2012) (quoting *7-Eleven Inc. v. Wechsler*, 83 USPQ2d 1715, 1724 (TTAB 2007)); TMEP §1207.01(a)(i).

Here, applicant’s goods, “Earphones; Mousepads; Cases for mobile phones; Cell phone battery chargers for use in vehicles; Cell phone cases; In-car telephone handset cradles; Lighting control panels; Loud speakers; Plug adaptors; Power cables; Power wires; Protective covers and cases for cell phones, laptops and portable media players; Waterproof cases for smart phones; Wireless chargers; Computer storage devices, namely, blank flash drives,” are closely related to registrant’s goods, “Cameras; digital video recorders; camera housings; camera brackets; internet protocol cameras; circumrotate platforms for use in cameras; [video monitors;] surveillance cameras; [matrix switchers; scanner;] outdoor pan, namely, a rotational camera drive for rotationally activating a camera in a tilt rotation about a horizontal axis and a scan rotation about a vertical axis.”

The attached Internet evidence, from *B&H Photo Video*, *Best Buy*, and *Crutchfield*, establishes that the relevant goods are sold or provided through the same trade channels and used by the same classes of consumers in the same fields of use. Thus, applicant’s and registrant’s goods are considered related for likelihood of confusion purposes. See, e.g., *In re Davey Prods. Pty Ltd.*, 92 USPQ2d 1198, 1202-04 (TTAB 2009); *In re Toshiba Med. Sys. Corp.*, 91 USPQ2d 1266, 1268-69, 1271-72 (TTAB 2009).

Different goods in the electrical, electronic, and/or electromechanical fields have been found to be

related where the evidence shows that the goods would be marketed through the same channels of trade and/or sold to the same classes of purchasers. *See, e.g., Alliance Mfg. Co. v. ABH Diversified Prods., Inc.*, 226 USPQ 348 (TTAB 1985) (finding cycling-type furnace controllers and various home products, including garage door openers and remote controls for operating lights and appliances, to be related, where both parties' goods were electrically powered/electronically operated, had similar energy conserving characteristics, and were sold for residential use); *In re Globe-Union Inc.*, 189 USPQ 158, 159 (TTAB 1975) (finding resistor-capacitor components and ceramic condensers to be related, where such goods "would be sold in the same trade channels to the same classes of purchasers such as original equipment manufacture[r]s for incorporation in the same piece of electronic equipment or apparatus"); *In re Dynaco, Inc.*, 189 USPQ 104, 105 (TTAB 1975) (finding two-channel stereophonic amplifiers, loudspeakers, and non-electronic devices for connecting amplifiers and speakers, on the one hand, and switching transistors, on the other, to be related because the goods would be "invariably sold to the same class of purchasers in such circumstances and conditions that if persons were to encounter them under the same or similar marks, they might well be induced to believe that they originate from a common source"); *Nat'l Steel Constr. Co. v. Matsushita Elec. Indus. Co.*, 158 USPQ 464 (TTAB 1968) (finding electric washing machines and electric water heaters to be related, where such goods were sold through the same channels of trade to the same class of purchaser, where the purchase of one of the party's goods could lead to the purchase of the other party's goods, and where the evidence of record indicated that a single manufacturer might produce both electric washing machines and electric water heaters).

Accordingly, the goods are considered related for purposes of the likelihood of confusion analysis.

Conclusion

Because the marks are similar and the goods are related, there is a likelihood of confusion as to the source of applicant's goods, and registration is refused pursuant to Section 2(d) of the Trademark Act.

Response Options to Refusals

Although applicant's mark has been refused registration, applicant may respond to the refusal by submitting evidence and arguments in support of registration.

Response guidelines. For this application to proceed, applicant must explicitly address each refusal in this Office action. For a refusal, applicant may provide written arguments and evidence against the refusal, and may have other response options if specified above. Please see "[Responding to Office Actions](#)" and the informational [video "Response to Office Action"](#) for more information and tips on responding.

Please call or email the assigned trademark examining attorney with questions about this Office action. Although an examining attorney cannot provide legal advice, the examining attorney can provide additional explanation about the refusal in this Office action. *See* TMEP §§705.02, 709.06.

The USPTO does not accept emails as responses to Office actions; however, emails can be used for informal communications and are included in the application record. *See* 37 C.F.R. §§2.62(c), 2.191; TMEP §§304.01-.02, 709.04-.05.

RESPONSE GUIDANCE

- **Missing the response deadline to this letter will cause the application to abandon.** The response must be received by the USPTO before midnight **Eastern Time** of the last day of the response period. TEAS maintenance or unforeseen circumstances could affect an applicant's ability to timely respond.
- **Responses signed by an unauthorized party** are not accepted and can **cause the application to abandon**. If applicant does not have an attorney, the response must be signed by the individual applicant, all joint applicants, or someone with legal authority to bind a juristic applicant. If applicant has an attorney, the response must be signed by the attorney.
- If needed, **find contact information for the supervisor** of the office or unit listed in the signature block.

Sensor and Processor

33MP Exmor R BSI CMOS Sensor

Newly developed 33MP Exmor R full-frame sensor features a back-illuminated design that promotes high clarity, low noise, and vivid color rendering. This design benefits working in low-light conditions and works in conjunction with a broad sensitivity range of ISO 100-51200. The sensor's design also achieves an impressive dynamic range of approximately 15 stops and files can be recorded in raw, JPEG, or the 10-bit HEIF format.

BIONZ XR Processor

Using the flagship-class BIONZ XR engine, high-speed image processing capabilities are available for fast continuous shooting, 4K video recording, and advanced AF tracking performance. The quick processing also helps to reduce rolling shutter and other motion distortions for clean rendering of moving subjects.

In terms of shooting speeds, the sensor and processor enable up to 10 fps shooting, using either the mechanical or electronic shutter and with AF/AE enabled. Also, the buffer permits recording up to 828 consecutive uncompressed raw + JPEG frames when using a CFexpress Type A card.

4K 60p Video Recording in 10-bit

- Making full use of the high-resolution 33MP sensor and fast processing capabilities, UHD 4K 30p XAVC HS 10-bit recording is possible using the full width of the sensor, offering 7K oversampling for impressive sharpness and realism.
- There is also oversampled 4K recording, via a 4.6K capture area, with a Super 35 crop, that offers UHD 4K output up to 60p in 10-bit.
- No recording time limit allows for unlimited clip lengths and the camera's physical design features an improved heat-dissipating structure to promote longer possible recording times; longer than one hour of continuous 4K 60p 10-bit 4:2:2 recording, for example.
- The a7 IV employs a pair of codecs to suit different workflows: XAVC HS, which uses HEVC/H.265 encoding to retain more detail at smaller bitrates and XAVC S-I, which is an intraframe codec for consistent performance and quality at bitrates up to 600 Mb/s.

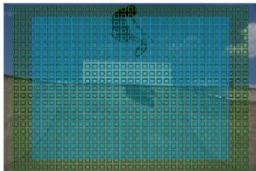

S-Cinetone, S-Log3, and Other Color and Gamma

- 2
- 3
- 4**
- S-Cinetone can be used to deliver distinct colors and healthy-looking skin tone rendering that matches the FX9 and FX6 cameras, along with the a1 and a7S III, and is based on technology from the professional Cinema Line cameras, such as the VENICE. This color profile offers natural mid-tones, soft colors, and especially well-controlled highlights.
 - HLG (Hybrid Log-Gamma) support permits recording within a wide color gamut for producing HDR-ready content directly from the camera.
 - S-Log3 is also available for producing a 15+ stop dynamic range with increased grading control in the shadow to mid-tone regions of the image.

Fast Hybrid AF System

AI-Based Autofocus

Covering approximately 94% of the image area, a Fast Hybrid AF system incorporates 759 phase-detection points for quick and precise focusing in a variety of lighting conditions with sensitivity down to -4 EV. This focusing system is available for use in all recording modes, to benefit both video and stills applications.

2

3

4

5

Real-time Tracking and Real-time Eye AF

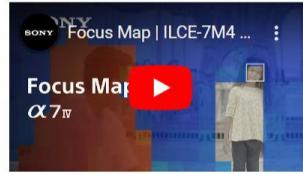

Borrowing from the flagship AF system, the a7 IV has tuned tracking and subject detection capabilities that lock onto subjects quickly and refines focus accurately on recognized eyes and faces of subjects:

- Real-time Tracking is an AI-based subject recognition system that recognizes color, pattern, and subject distance information for high accuracy and focusing speed.
- Beyond just tracking subjects, Real-time Eye AF fine-tunes the focusing accuracy and recognizes human, animal, and bird's eyes for critical sharpness. Real-time Eye AF even maintains focus on a subject's eye when they leave and re-enter the frame, allowing for working in more spontaneous shooting situations.

AF During Video Recording and Additional Focusing Modes

- Real-time Eye AF is fully supported during video recording, for subject detection and tracking of human, animal, and bird eyes while shooting.
- For more control over how focus shifts appear during recording, seven-step AF transition speeds and five-step AF subject shift sensitivity controls let you refine how quickly focus shifts from point to point and how smoothly focusing shifts occur.
- Focus Map is a unique way of visualizing depth of field and functions in a similar way to peaking with a colorful overlay of the scene that indicates which parts of the scene are in front of and behind the focus point depending on the chosen aperture.
- A feature carried over from the FX6 digital cine camera, AF Assist lets you intuitively switch over to manual focus control for adjusting focus position when working with AF. This is a quick way to shift selective focus between various subjects in a scene while recording.

- A unique solution to compensate for how certain lenses perform when racking focus, Focus Breathing compensation will automatically smooth focus transitions and maintain a consistent field of view when changing the focus position during a shot. This mode crops into the image slightly and corrects for any detected shifts in composition when focusing is happening. This function is compatible with select E-mount lenses, check [Breathing Compensation lens compatibility here](#).

Body Design, Connectivity, and Streaming

Viewfinder and LCD Screen

- An improved QVGA OLED Tru-Finder EVF features a 3.68m-dot

resolution that is approximately 1.6x higher in resolution than its predecessor for sharper, clearer viewing. This viewfinder supports both standard 60 fps and 120 fps frame rates for smooth motion rendering and its physical design has a long 23mm eye point, 0.78x-magnification, and 37.3° field of view.

- Perfect for vlogging or other self-recording needs, the side-opening 3.0" 1.03m-dot vari-angle articulating screen can be used in a front-facing orientation or can be tilted up or down to suit working from high or low shooting angles. This LCD is a touchscreen, too, for intuitive shooting control and menu navigation.

2
3
4
5

6
2
3
4
5

Ports and Interface

- Full-size HDMI A port offers a more reliable connection when working with external recorders.
- A USB 3.2 Gen 2 Type-C port has been added, in addition to a micro-USB port, for faster, more reliable tethering support. The USB Type-C connection allows the camera to be charged or powered from the host power source while connected.
- Both 3.5mm headphone and external microphone ports facilitate greater control over audio recording.
- Multi Interface Shoe supports working with the optional ECM-B1M

- USB Type-C port can be paired with an optional Ethernet wired LAN adapter to provide 1000BASE-T connectivity, wired remote shooting, or FTP transferring.

5-Axis SteadyShot INSIDE Image Stabilization

- Enhanced 5.5-stop effective 5-axis SteadyShot INSIDE image stabilization system compensates for five different types of camera shake encountered during handheld shooting of stills and video and allows users to confidently use any lens, even adapted

video and allows users to conveniently use any lens, even adapted lenses, for critical shooting without encountering blur from camera shake.

- For long focal lengths, the system will correct for pitch and yaw adjustments. Macro and high-magnification imagery, on the other hand, will benefit from the inclusion of horizontal and vertical shift compensation. All shooting styles will get usage out of the roll compensation. All 5 axes of stabilization will function at all times, even when used with third-party lenses and adapters or lenses with built-in optical stabilization.
- Additionally, specifically for video, there is also an Active IS mode that adds even more precise stabilization methods for even smoother footage straight out of camera.

2
3
4
5
6

Advanced External Flash Control

Suiting working with flash while photographing fast-moving subjects, P-TTL flash metering is possible in between each exposure when working with lo, mid, or even hi-speed continuous shooting modes. This helps to maintain stable illumination if making low-light bursts and greatly benefits working in changing light or low-light conditions. The updated flash control system also helps to reduce flash trigger lag, uses the camera's AWB information for natural color rendering, and supports adjusting select flash and transmitter units directly from the camera's interface.

Wireless Connectivity and Streaming

- Built-in Wi-Fi enables the remote camera control and instant sharing of imagery to mobile devices for direct sharing online, and support for both 2.4 and 5 GHz bands also enables wireless device.
- Supports Visual Story for easy cloud-based deliver of photos and videos immediately after shooting.

2
3
4
5

- Live streaming is possible directly from the camera simply by

6

connecting the camera to a computer or compatible mobile device via USB, allowing the camera's video and audio capabilities to be used for live social media and video conferencing.

- 4K 15p, FHD 60p/30p, and HD 30p recording settings are available and there are also internal Creative Look and Soft Skin effects for a refined image quality straight from the camera.
- Internal recording is supported to a memory card while live streaming.
- UVC and UAC standards are supported for improved picture and sound quality during streaming.

Apple AirPods Pro Overview

Surprise! Apple Announces New AirPods Pro with Active Noise Cancellation

[Read More >](#)

*Enjoy immersive sound and optimal comfort with the **Apple AirPods Pro with Wireless Charging Case**, sweat- and water-resistant wireless Bluetooth earphones that use optical sensors and a motion accelerometer to detect when they're in your ears. The all-new, lightweight, in-ear design boasts a customizable fit while providing complete sonic performance. Use Active Noise Cancellation to keep you focused on enjoying your content, or switch to Transparency Mode to stay aware of what's going on in the environment around you.*

To ensure a rewarding listening experience, the AirPods Pro utilize Adaptive EQ to automatically sculpt the tonal output to suit your unique ear shape. Their custom high-excursion drivers and high dynamic range amplifiers deliver clear, detailed sound with bass down to 20 Hz, all while keeping distortion low and upholding extended battery life. The flexible silicone eartips come in three sizes and advanced algorithms allow the AirPods Pro to analyze the fit and let you know if the current eartip size is giving the ideal seal.

Following a single-tap setup, these AirPods automatically turn on and maintain their connection to your iPhone, Apple Watch, iPad, or Mac computer; forget having to manually engage or disengage power. Enjoy music, answer calls, or communicate with Siri on your mobile device without having to pull out your iPhone.

These AirPods automatically play audio as soon as you put them in your ears and pause when you take them out. A simple double-tap during music listening will skip forward. To adjust the volume, change the song, make a call, or even get directions, just say "Hey Siri" to activate your favorite personal assistant. Plus, when you're on a call or talking to Siri, an additional accelerometer works with dual beamforming microphones to filter out background noise and ensure that your voice is transmitted with clarity and consistency.

Additionally, they deliver five hours of listening time on a single charge—or 4.5 hours of listening time in Active Noise Cancellation mode, and they're made to keep up with you thanks to a wireless charging case that holds multiple additional charges for more than 24 hours of listening time or over 18 hours of talk time. Just 5 minutes in the case gives you approximately one hour of listening time. With the included Wireless Charging Case, charging is as simple as placing the AirPods case on a Qi-compatible charging mat (available separately).

In the Box

Apple AirPods Pro with Wireless Charging Case

Wireless Charging Case

Silicone Eartips (Three Sizes)

Lightning to USB Type-C Cable

Limited 1-Year Warranty

Feature Highlights

- IPX4 rated to resist sweat and water, making them ideal for sports and exercise
- Internally tapered tips conform to your ear shape while vents help equalize pressure for maximum comfort
- Active Noise Cancellation continuously adapts to the geometry of your ear and the fit of the eartips to keep you isolated from the world around you
- Press and hold the force sensor on the stem to switch between Active Noise Cancellation and Transparency Mode, which allows outside sound in to keep you aware of your environment
- Expanded mesh microphone port increases call clarity in windy locations
- H1 headphone chip features 10 audio cores for low processing latency and real-time noise cancellation
- Bluetooth 5.0 for reliable, high-quality reception
- Automatically on, automatically connected
- One-tap setup for your Apple devices
- Voice-enabled access to Siri
- Audio Sharing enables you and a friend to enjoy the same song or movie by simply bringing a second pair of AirPods close to your iPhone or iPad
- More than 24-hour battery life with charging case
- With the included Wireless Charging Case, charging is as simple as placing the AirPods case on a Qi-compatible charging mat (available separately)

Compatibility

- iPhone, iPad, iPod Touch, Apple Watch, Mac, and Apple TV running the latest software
- Visit the Apple website for a detailed list of compatible models

4

The gray **Standard Mouse Pad** from Belkin features a durable jersey surface to improve your mouse accuracy and response. Its neoprene backing helps prevent slippage during prolonged use.

Improved Mouse Performance

Using a mouse pad will increase the accuracy, control, and responsiveness of your mouse. This helps you maintain a more pleasant computing experience.

Universal Compatibility

This mouse pad will work with any standard mouse. You won't have to worry about your mouse being unable to track correctly when using it.

2
3
4

Nonslip Backing

The neoprene nonslip backing helps to keep the mouse pad in one place. You don't want to be stuck with a mouse pad that is constantly sliding around your desk.

DiCAPac WP-C2 Overview

Whether you're home at the pool or in the ocean on vacation, the **DiCapac Floating Waterproof Smartphone Case** lets you take clear images and videos underwater. This case is designed for Android phones and iPhones up to 6.9". Your phone is submersible and protected from the elements thanks to its built-in airbag and scratch-resistant dual-layer construction. Even with all of this protection, you can still talk and operate the touchscreen like normal. With the addition of the DiCapac Action mount and included Action clip, you can go hands-free with ease.

Clear Images & Videos

The T-shaped polycarbonate window is made to be scratch resistant and absorb reflections, delivering clear content in and out of the water.

Action Mount & Action Clip

The integrated Action mount is made to attach to the included Action clip and a variety of optional DiCapac accessories, such as an armband, various mounts, and more. With the Action clip, you can attach the case to bags, belts, and clothing.

Additional Features

- iPhone home button remains usable through the case
- Dual-layer construction protects from scratches and impacts
- Two holes for an optional neck strap

Watson TAG-USA-E Overview

The Watson 3-Prong USA to 2-Prong Europe Power Adapter Plug is ideal for international power connectivity. This plug accepts a grounded three-prong USA plug and adapts it to a standard 2-prong Europlug (CEE 7/16).

Note: Not compatible with "French" Type E (CEE 7/5 and CEE 7/6) outlets.
This adapter only adapts plug style and not voltage; this device should be used with power converters or devices with universal power supplies.

[ACCESSORIES](#)

Belkin WIA002TT Overview

1 Optimized for top brand smartphones, the **BOOST CHARGE 15W Wireless Charging Pad with 24W QC 3.0 Charger** from **Belkin** can provide up to 15W of power to these devices via Qi-compatible wireless charging technology. Fast 15W charging is compatible with select Apple, Samsung, and Google phones. For other Qi-compatible devices, this pad will deliver up to 5W of power. Proper alignment is key to wireless charging, which is why Belkin equipped this pad with an anti-slip grip to keep your device in place, and a color-changing LED connection status light.

LED Connection Light

To help ensure that your smartphone is properly aligned for charging, just glance at the color of the light. If it's red, your device is not charging. If it's green, you're properly aligned and charging.

Foreign Object Detection

The LED connection light will glow amber if a non-Qi-compatible foreign object is placed onto the pad.

Additional Features

2 24W Quick Charge 3.0 charger is included

Supports charging through most plastic cases up to 0.12" thick

3 UPC: 745883798605

Brilliant 4 Switch Control Overview

In the Box

Implement all-in-one smart home control over Wi-Fi with

the Smart Home 4-Switch Control Panel (White) from Brilliant. Operational without a hub thanks to Wi-Fi connectivity, this device controls four lights and all smart devices connected to it for an integrated smart home solution. It features multiway switching control and light dimming via a mobile app or touch slider, and can integrate with select third-party smart home devices like thermostats, bulbs, smart locks, speakers, and more. The unit has a 720p 5" LCD touchscreen that can display photos, art, and weather forecasts. Video intercom functionality, with a privacy shutter, is provided by a built-in microphone and camera. Onboard sensors include motion, temperature, and ambient light. iOS and Android

HomeKit allows for seamless voice control. Neutral, ground, line, and load wires are required for operation.

Brilliant Smart Home 4-Switch Control Panel (White)

Limited 1-Year Warranty

Installation Sheet

0.6 MB

HomeKit allows for seamless voice control. Neutral, ground, line, and load wires are required for operation.

- Connects to compatible smart home products over Wi-Fi so you can control your music, climate, locks, and more
- No hub required for operation thanks to 2.4 GHz Wi-Fi connectivity
- Supports compatible LED, CFL, halogen, and incandescent dimmable lights
- Video intercom functionality with privacy shutter for secure video and audio calls between rooms when multiple controllers are installed
- Set customizable scenes to combine lighting, home automation, music, timer, and temperature control
- Motion control automatically turns lights on and off when you enter and leave a room, turning on the display and any programmed scene
- Send photos from your phone to the controller's screen
- Fully operational without Wi-Fi thanks to Bluetooth connectivity
- Fully operational without Wi-Fi thanks to Bluetooth connectivity

- Works with ceiling fans equipped with an on/off switch
- Automatic software updates ensure that the controller is equipped with the latest software
- No monthly recurring fees

Compatibility

Compatible with Amazon Alexa, Google Assistant, Apple HomeKit, August locks, ButterflyMX intercoms, select ecobee thermostats, select Emtek locks, Entrata software, Genie, select Honeywell Home devices, select Kwikset locks, LIFX smart bulbs, Leviton smart devices, Lutron switches, Philips Hue, Ring doorbells and cameras, Salto smart locks, Schlage smart locks, SmartThings, Somfy shades, Sonos, TP-Link, Wemo, and Yale locks

QSC Announces 8- and 12-Inch Compact Powered Series Loudspeakers

[Read More >](#)

*Audio engineers and sound reinforcement rental houses looking for a compact, high-powered PA speaker will be impressed by the **QSC CP8**, a 1000W powered PA speaker that's portable, versatile, and simple to use. It can function as a main PA in a wide variety of positions, with a pair able to cover an audience up to 250. The onboard DSP processing, 3-input mixer, and contour settings with easy-to-use presets help working presenters, musicians, instructors, performers, and A/V providers get powerful, clean, and clear sound quickly.*

The speaker provides 90° coverage from the center axis and 124 dB of continuous SPL—plenty of volume for smaller venues including houses of worship, conference centers, performance spaces, and meeting rooms. The highly efficient 1000W Class-D amplifier powers the 1.4" titanium compression driver and 8" woofer, providing crisp, detailed sound with a wide frequency range from 20 kHz down to 56 Hz.

Three inputs are on the back. Inputs A and B feature combo XLR-1/4" connectors. Input A offers a Line input—convenient if you're using a mixer to combine multiple input sources. Input B offers a Mic/Line selection and a Mic Boost button, which adds an additional +25 dB of gain to the input. Input C features a stereo 3.5mm TRS auxiliary input for connecting portable audio devices including phones and MP3 players.

Individual gain controls on the A&B inputs allow the speaker to function as a 2-channel mixer. Input C is controlled via the A input gain control. Combine a microphone for presentations, or combine a mic, instrument, and backing tracks for singer/songwriter gigs. The speaker can also be used as floor monitors, giving them added versatility.

An XLR Thru-Output is available for daisy-chaining to additional speakers or other audio equipment. All three mono inputs are mixed to a mono signal internally and are passed-thru the Mix Out XLR connector. For a true stereo L/R operation, two CP8s are needed with each to receive independent the left and right signals respectively.

QSC CP8 Two-Way 8" 1000W Compact Powered Loudspeaker with DSP

Power Cord

Limited 1-Year Warranty Extendable to 6 Years upon Product Registration

Guides & Manuals

QSC's Directivity Matched Transition (DMT) matches the angle of the woofer and the horn to ensure consistent, high-quality sound across the entire coverage area. The Intrinsic Correction techniques ensure a smooth power response, resulting in accurate performance in a wide range of acoustic spaces with little or no EQ. The CP8 includes a power cord.

At a Glance

2
3
4

- Compact and powerful performance
- 1000W peak power Class-D amplifier module
- Easily selected contours for commonly used applications
- Advanced DSP with Intrinsic Correction for superior sound quality and speaker protection
- Directivity Matched Transition (DMT) for consistent frequency response across the entire coverage area
- Lightweight and highly portable
- Professional appearance looks great in any application
- Use for main PA, stage monitor, or instrument amplifier
- 35mm pole socket

Contour Selections

2
3
4

- Default: The standard, factory voicing of the loudspeaker for use with live music, program music, or instruments.
- Default Ext Sub: The standard, factory voicing of the loudspeaker with an 80 Hz high-pass filter for use with live music, program music, or instruments, and an external subwoofer, for example, the KS112.
- Dance: A voicing with low-frequency enhancement and mid/high clarity more suitable for program material playback like pop or electronic music. When MIC BOOST is selected, input B contour changes to "Speech" while input A remains as "Dance."
- Dance Ext Sub: A voicing with low-frequency enhancement and mid/high clarity more suitable for program material playback like pop or electronic music, with an 80 Hz high-pass filter for use with an external subwoofer,
For example, the KS112. When MIC BOOST is selected, input B contour changes to "Speech" while input A remains as "Dance."

for example, the RST 12. When MIC BOOST is selected, Input B contour changes to "Speech" while Input A remains as "Dance."

- Floor Monitor: A voicing for a full, balanced sound when used as a floor monitor, giving added stability when live microphones are nearby
- Speech: A voicing (Input B only) that gives clarity and stability when used with either a hand-held dynamic microphone or headset microphone. Input A/C remains on the Default voicing so that music or audio can pass through the loudspeaker simultaneously without the Speech voicing being applied to it.

ANKER Roav Viva Overview

Take Amazon Alexa on the road and charge your mobile devices with the **Roav Viva Alexa-Enabled Car Charger with Universal Magnetic Mount** from Anker. The dual USB Type-A ports are equipped with Anker's charging technology, to deliver the fastest possible charge to your mobile devices such as smartphones, tablets, and more.

Aside from charging mobile devices, this car charger also features Amazon Alexa which gives you hands-free voice control. With Alexa, you can utilize voice-controlled navigation, voice-initiated calling, control your music using your voice, and even control your smart home devices while you're away from home.

Built with dual mics and noise-cancellation technology, the Viva is designed to hear all your questions and commands. Moreover, you can secure your phone to your dashboard while you drive with the included Universal Magnetic Mount.

Noise Reduction

Filters out background noise to ensure the Viva hears your questions and commands

High-Sensitivity MEMS Mics

Crafted with silicone-MEMS technology, to be smaller and more sensitive

Dedicated App

Enjoy all of Alexa's functions through your data network with the Roav Viva app for iOS and Android

MultiProtect

With 11 built-in safety features, the Roav Viva provides reliable performance

SanDisk Dual Drive Luxe Overview

1
2
3
4
5

Avoid running out of storage space on your device by using the **256GB Ultra Dual Drive Luxe USB 3.1 Flash Drive** to back up your files. With its dual USB 3.1 Gen 1 connectors, you can quickly transfer photos, videos, and more from your USB Type-C smartphone or tablet to a USB Type-A computer at up to 150 Mb/s. The 256GB flash drive also features an all-metal housing with a cover that swivels to protect its connectors. Keep it in a bag, slip it in your pocket, or attach it to a key ring to take the drive with you on your travels. Installing the SanDisk Memory Zone app onto your Android device allows you to organize and browse your files in addition to automatically backing up documents, contacts, and media.

Dual USB Type-C and Type-A Connectors

The Ultra Dual Drive Luxe features a USB Type-C connector on one end and a USB Type-A connector on the other for fast access to the drive from a variety of devices.

Extended Storage

Make room on your USB Type-C smartphone or tablet for photos, videos, documents, apps, and more by transferring files to the SanDisk Ultra Dual Drive Luxe flash drive. You can access, share, edit, and archive the content using a computer with a USB Type-A port.

USB 3.1 Gen 1

High-speed USB 3.1 Gen 1 performance of up to 150 MB/s means you spend less time waiting to transfer your photos, videos, songs, and other files between devices.

SanDisk Memory Zone App

Android mobile device users can download SanDisk Memory Zone from the Google Play Store to organize, browse, and move files to different storage locations, including supported cloud services. Using the app, you can find files across all your device's storage locations with name, geotagging, or timeline searches.

Vello CB-100 Overview

The **QuickDraw Rotating Flash Bracket** from **Vello** positions your flash unit well above the camera body and can quickly and smoothly rotate the flash 90° as you switch from horizontal to vertical shooting. With the flash detached from the body you are less likely to get red-eye effect, and with the rotating mechanism the flash is always above the lens, eliminating side shadows and providing a balanced and effective illumination.

Five mounting holes on the camera platform allow for almost any camera to utilize the bracket. Choose the hole that best balances your camera and tighten it in place with the mounting knob. Attach the flash unit to the bracket's accessory shoe by loosening the red knob, inserting the flash into the accessory shoe and tightening. Connect your flash cable to the flash unit and wrap it around or secure it to the bracket arm and you are ready to shoot.

The flash arm rotates 180° with a smooth and easy flip for when you need to shoot vertical. The padded grip is a comfortable way to stabilize your camera when shooting and is strong enough to be used as a handle for the entire system when not shooting.

The accessory shoe can be positioned in one of two locations or unscrewed and removed to accommodate the Nikon SC-28 and SC-29 or other off-camera shoe cords.

- Adjustable cold shoe accepts almost any shoe-mount flash or accessory
- Comfortable, soft hand grip can be used as a carrying handle.
- Can be used with or without battery grip
- Sturdy, lightweight aluminum construction
- Sockets for mounting unto tripod

Google Nest Cam Overview

By B&H Photo's
Atane Ofiaga

Monitor an indoor or outdoor area with the **Nest Cam Battery** provided here in a two-pack. These units can each be powered by a built-in rechargeable lithium-ion battery, or an included USB Type-A power adapter. They use 1/2.8" image sensors to capture 1080p resolution video at 30 fps. The cameras feature up to 20' of night vision, 130° diagonal fields of view, two-way audio with noise cancellation, and motion detection.

These dual-band Wi-Fi cameras are rated IP54 for protection from dust and splashing water.

- Powered by rechargeable lithium-ion batteries or USB Type-A power adapters
- H.264 video codec
- Smart motion-activated alerts that can differentiate between people, animals, and vehicles
- Motion detection range up to 25'
- Two-way audio via built-in speaker and microphone with noise cancellation
- Supports HDR
- 6x digital zoom
- Work with Google Home app
- RGB LED status indicators

In the Box

Google 1080p Indoor/Outdoor Nest Cam Battery (2-Pack)

2 x Magnetic Plates

2 x Wall Plates

4 x Wall Anchors

4 x Wall Screws

3.3' Charge Cable

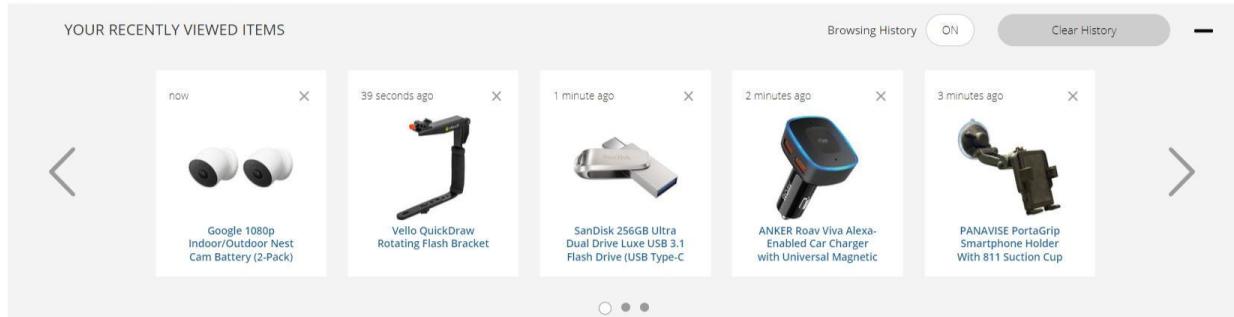

Power Adapter

Limited 1-Year Warranty

- TLS/SSL with 128-bit AES encryption, secure boot, automatic security updates, on-device machine learning, and built-in magnetometer sensor
- Three hours of event-based video history cloud storage included (Nest Aware subscription required for up to 10 days of 24/7 video history)

UPC: 193575008332

Overview

Description

Record on-air television with this Fire TV Recast DVR. It has two tuners, so you can record two shows at once, store them on the 500GB drive and watch on Fire TV, Echo Show or other compatible mobile devices. Enjoy local news, live sports and late-night shows with this Fire TV Recast DVR.

Meet the Fire TV family.

See all the ways to create a smarter TV-watching experience, and start enjoying endless content, Alexa skills and more.

[Learn more about Fire TV devices](#)

Features

Fire TV Recast digital video recorder

Lets you watch and record over-the-air TV at home or on-the-go. Record HD antenna programming with this over-the-air (OTA) DVR.

A huge selection of entertainment

Watch and record live sports, local news, late night shows, and other can't miss TV from channels available through an HD antenna like ABC, CBS, FOX, NBC, PBS, and The CW.

500GB internal memory

Store up to 75 hours of HD programming.

Voice-controlled with Alexa enabled device

You can use your voice to search for shows, manage and schedule recordings, and help with other requests.

High-speed wireless connectivity

Built-in 802.11ac Wi-Fi connects to the Internet through your wireless home network (wireless router required and sold separately).

Additional equipment required (sold separately)

HD antenna to access and record free over-the-air TV; Fire TV, Echo Show, or mobile device.

Web-based services and content require high-speed Internet service. Some services may require a subscription.

Included Free

fuboTV - Free for 30 days (new subscribers only, not billed unless activated) [Digital]

Watch live TV when you want, where you want for less than the cost of cable. With 100+ top channels to choose from, stream all the sports, shows, movies, and news you love to watch from your TV, computer, and other devices. Plus, stream on the go or at home on as many devices as you want, and record your favorites with 1,000

hours of cloud DVR, all included.

What's Included

50W power supply
Amazon Fire TV Recast 500GB OTA DVR
Owner's manual

Overview

Description

LifeProof FRĒ Series for Apple iPhone . Surf trips with the crew, ski getaways with the family, trail runs with yourself — FRĒ is engineered for adventure wherever you travel. Covered on all sides, it wades into the elements with absolute certainty — and survives hard falls along the way. Plus, its ultra-slim fit creates confidence without throwing off your phone's sleek design.

Features

Designed for use with Apple iPhone 12

Protects and compliments your phone.

WaterProof case

Submersible to 2 meters for 1 hour.

Sustainably made

With 60% recycled plastic (35% ocean based).

Thin design

Sleek design follows your phone's precision lines.

Functionality

Full accessibility to every button, control and port.

DropProof

Survives drops from 2 meters.

DirtProof

Sealed from dirt and dust.

SnowProof

Closed to snow and ice.

Included Free

3 Items

**Apple - Free Apple Music for up to 6 months (new or returning subscribers only)**

With Apple Music, you can play over 90 million songs and 30,000 playlists ad-free, online or off.

**Apple - Free Apple News+ for up to 6 months (new or returning subscribers only)**

Apple News+ is your own personal newsstand, with full access to hundreds of magazines and leading newspapers. Find it on the Apple News app.

**Apple - Free Apple TV+ for 3 months (new or returning subscribers only)**

With Apple TV+, you can stream Apple Original series and films, including compelling dramas, groundbreaking documentaries, kids' entertainment, and comedies—with new Apple Originals added every month.

About the Metra Spyclops 5MP Bullet Camera

A top-notch security camera

This feature-packed and weather-resistant IP camera makes it a breeze to keep an eye on your home or business. Its five-megapixel image sensor delivers crystal clear HD picture quality. And if you want a closer look at something you see, it's easy to control the 5X optical zoom from the web interface, NVR, or free Spyclops mobile app. The camera's built-in motorized...

About the Canon PowerShot G7 X Mark III

by Crutchfield's

Eric A.

[Read bio >](#)

Special features for social media stars

Canon's PowerShot G7 Mark III takes high-quality stills and shoots 4K video, but that's just the beginning. It also offers special features that make it a no-brainer for those who like to share images on social media. Wi-Fi is built in, and the camera can live-stream directly to YouTube.

[KEEP READING](#)

Product highlights:

- 20.1-megapixel effective recording
- 1" stacked CMOS sensor for excellent image quality
- 4.2X optical zoom (4X digital)
 - optical image stabilization minimizes blurring caused by camera shake
- 3" high-resolution (1.04-million-dot) LCD touchscreen
 - screen tilts up 180° and down 45°
- self-timer lets you get in the picture
- f/1.8-2.8 lens (35mm equivalent focal length: 24-100mm)
- built-in Wi-Fi® and Bluetooth® for convenient sharing and remote control
- allows live-streaming directly to YouTube™
- DIGIC 8 processor for superior image quality and fast camera response

What's in the box:

[Canon PowerShot G7 X Mark III owner's manual](#)

- Digital camera (black)
- NB-13L Lithium-Ion battery pack (3.6V 1250mAh 4.5Wh)
- CB-2LH Battery charger (DC output 4.2V 0.7A)
- Wrist strap
- Getting Started booklet
- Warranty card
- Online registration card
- Important Safety Instructions

About the Scosche TAQ04

by Crutchfield's
Dave Delamere
[Read bio >](#)

Secure wireless phone charging for your Camry

Scosche's TAQ04 charger combines the convenience of the MagicMount™ phone mounting system with the functionality of a Qi (pronounced "chee") wireless charging system. Top it off with the fact that Scosche designed this charger to fit right on the center console location in your Toyota, and you've got a charger that looks like it came right from the factory. You'll need to...
[KEEP READING](#)

Product highlights:

- vehicle-specific Qi wireless charger for select smartphones
- installs in center console of select 2015-17 Toyota Camry models
- up to 10W of wireless charging power
- compatible with iPhone® 8, iPhone 8 Plus, and iPhone X
- Qi-certified by Wireless Power Consortium (WPC) to assure safe, reliable charging for Qi-enabled devices
- LED light on side of mount indicates charging status
- foreign object detection prevents charging when objects obstruct charging area
- included thin non-magnetic metal plate that attaches to device with adhesive
- features powerful built-in neodymium magnets safe for

What's in the box:

[Scosche TAQ04 owner's manual](#)

- Magnetic Qi wireless charger in center console bezel
- 5' T-harness with USB-C plug
- Large self-adhesive metal plate (for smartphone device)
- 2 Small self-adhesive metal plates (for cases)
- Galaxy S9/S9+ metal plates and template
- iPhone template guide
- Cleaning wipe
- Instructions
- Self-adhesive decals

About the AudioQuest Monsoon Power Cable

by Crutchfield's
Archer A.
[Read bio >](#)

Upgrade that weak link

The power coming from your wall outlet is the bedrock that your A/V system's performance is built on. If your power cable can't keep noise out, your audio and video experience is going to be seriously hindered. Stock power cords are the biggest culprit for interference. Their flimsy, cheap design acts like a magnet for electrical noise. Rarely will they ever have the proper shielding a...

[KEEP READING](#)

Product highlights:

- outer Perfect-Surface Copper+ and inner Long-Grain Copper direction-controlled conductors
- 3-prong connector for wall outlet, 3-pole IEC "C19" connector for component
- true-concentric conductor arrangement reduces strand interaction, distortion, and magnetic confusion
- textile braid cover reduces kinks and improves durability
- low DC resistance and zero characteristic impedance help deliver uncompressed transients on demand
- maximum current capacity: 20 amps
- warranty: 5 years
- Our 60-day money-back guarantee

What's in the box:

- 6.5' AC power cable (with a 20-amp IEC-C19 connector on end and a 3-prong AC plug on other end)

About the Crutchfield Red Power Wire

by Crutchfield's

Buck Pomerantz

[Read bio >](#)

Let the power flow

If you're a do-it-yourselfer installing an amplifier in a vehicle, Crutchfield Power Wire delivers power efficiently, safely, economically, so you'll enjoy peak performance from all your gear.

[KEEP READING](#)

What's in the box:

- 8 AWG power wire with red translucent jacket (sold by the foot)

MFR #CPWR8-500

Featured review

Won't use anything but Crutchfield wire. Have tried 5-6 off other retailers, even the T-Spec and Stinger Pro on here. Crutchfield still has the best in my opinion

Jacob
from Harriman, TN

[See all 121 reviews](#)

Customer Q&A

Is this marine grade cable?

A

Can you clarify what you mean by "marine grade"? This is high quality copper power wire. It has a rubber sleeve, but I wouldn't recommend submersing in water, if that's what you're asking.

About the QSC K12.2

Second generation wow

QSC raises the standards for PA sound quality with their K.2 Series K12.2 loudspeakers, the second generation of the legendary K Series. These little black boxes, each featuring a 3-channel input mixer, onboard digital signal processing, and a 2000-watt amplifier, will blow you away with their roar.

[KEEP READING](#)

Product highlights:

- 2-way powered PA speaker
- 12" woofer and 1.4" titanium high-frequency compression driver
- 2000-watt Class D amplifier (peak: 1800W to woofer, 225W to tweeter)
- maximum SPL: 132 dB peak, 126 dB continuous
- frequency response: 50-20,000 Hz
- coverage: 75° conical

Connections and Controls:

- 3-input mixer with gain controls
 - Ch A: microphone/line XLR-1/4" TRS combo
 - Ch B: Hi-Z/line XLR-1/4" TRS combo
 - Ch C: stereo 1/8" (3.5 mm) TRS

Featured review

Played first gig with this. WOW!! Crystal clear with tons of reserve headroom. The room was filled with the sound of our music over the dancing and partying. I couldn't be happier. The heat sink wasn't at the end of the night it was warm but not hot.

Al
from Royse City, TX

United States Patent and Trademark Office (USPTO)

USPTO OFFICIAL NOTICE

Office Action (Official Letter) has issued

on August 25, 2022 for

U.S. Trademark Application Serial No. 97119320

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action in order to avoid your application abandoning. Follow the steps below.

(1) [**Read the Office action**](#). This email is NOT the Office action.

(2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS). Your response must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response period. Otherwise, your application will be [abandoned](#). See the Office action itself regarding how to respond.

(3) **Direct general questions** about using USPTO electronic forms, the USPTO [website](#), the application process, the status of your application, and whether there are outstanding deadlines to the [Trademark Assistance Center \(TAC\)](#).

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

GENERAL GUIDANCE

- [**Check the status of your application periodically**](#) in the [Trademark Status & Document Retrieval \(TSDR\)](#) database to avoid missing critical deadlines.
- [**Update your correspondence email address**](#) to ensure you receive important USPTO notices about your application.
- [**Beware of trademark-related scams**](#). Protect yourself from people and companies that may try to take financial advantage of you. Private companies may call you and pretend to be the USPTO or may send you communications that resemble official USPTO documents to trick you. We will never request your credit card number or social security number over the phone. And all official USPTO correspondence will only be emailed from the domain “@uspto.gov.” Verify the correspondence originated from us by using your Serial Number in our database, [TSDR](#), to confirm that it appears under the “Documents” tab, or contact the [Trademark Assistance Center](#).

- **Hiring a U.S.-licensed attorney.** If you do not have an attorney and are not required to have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
