**United States Patent and Trademark Office (USPTO)
Office Action (Official Letter) About Applicant's Trademark Application**

U.S. Application Serial No. 97118792

Mark: OMERRA

Correspondence Address:

Zhuoyi Ma
217 Ashley Forest Rd
Chapel Hill NC 27514 UNITED STATES

Applicant: Shenzhen Baoshitong Technology Co., Ltd.

Reference/Docket No. TMAH-421

Correspondence Email Address: abb.pllc@outlook.com

NONFINAL OFFICE ACTION

The USPTO must receive applicant's response to this letter within six months of the issue date below or the application will be abandoned. Respond using the Trademark Electronic Application System (TEAS). A link to the appropriate TEAS response form appears at the end of this Office action.

Issue date: August 27, 2022

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue(s) below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62(a), 2.65(a); TMEP §§711, 718.03.

SUMMARY OF ISSUES:

- A. Section 2(d) Refusal -- Likelihood of Confusion
- B. Prior-Filed Application May Bar Registration

A. SECTION 2(d) REFUSAL -- LIKELIHOOD OF CONFUSION

Registration of the applied-for mark is refused because of a likelihood of confusion with the marks in U.S. Registration Nos. **4409970** and **6711910**. Trademark Act Section 2(d), 15 U.S.C. §1052(d); *see*

TMEP §§1207.01 *et seq.* See the attached registrations.

Applicant has applied to register the mark **OMERRA** in standard characters for "Abrasive pads for kitchen purposes; Appliances for removing make-up, non-electric; Barbecue tongs; Barbecue turners; Bottle openers, electric and non-electric; Button hooks; Cleaning brushes for barbecue grills; Coffee stirrers; Containers for household or kitchen use; Drinking flasks; Egg rings; Grill scrapers; Household gloves for general use; Household utensils, namely, spatulas; Squeeze bottles sold empty" in International Class 21.

The cited registered marks are as follows:

- Registration No. 4409970 -- **OMIERA** in standard characters for "Anti-aging cream; Cosmetic preparations for skin renewal; Hair care creams; Nail care preparations; Non-medicated facial and eye serum containing antioxidants; Non-medicated hair treatment preparations for cosmetic purposes" in International Class 3.
- Registration No. 6711910 -- **OMAIRA** in stylized text with a design for "Bath accessories, namely, cup holders; Containers for household or kitchen use; General purpose storage bins for household use; Plastic bath racks; Portable plastic containers for storing household and kitchen goods; Rails and rings for towels; Shower caddies; Shower racks; Soap dispensers; Soap holders; Squeegees for household use" in International Class 21.

Trademark Act Section 2(d) bars registration of an applied-for mark that is so similar to a registered mark that it is likely consumers would be confused, mistaken, or deceived as to the commercial source of the goods and/or services of the parties. *See* 15 U.S.C. §1052(d). Likelihood of confusion is determined on a case-by-case basis by applying the factors set forth in *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973) (called the "du Pont factors"). *In re i.am.symbolic, llc*, 866 F.3d 1315, 1322, 123 USPQ2d 1744, 1747 (Fed. Cir. 2017). Any evidence of record related to those factors need be considered; however, "not all of the DuPont factors are relevant or of similar weight in every case." *In re Guild Mortg. Co.*, 912 F.3d 1376, 1379, 129 USPQ2d 1160, 1162 (Fed. Cir. 2019) (quoting *In re Dixie Rests., Inc.*, 105 F.3d 1405, 1406, 41 USPQ2d 1531, 1533 (Fed. Cir. 1997)).

Although not all *du Pont* factors may be relevant, there are generally two key considerations in any likelihood of confusion analysis: (1) the similarities between the compared marks and (2) the relatedness of the compared goods and/or services. *See In re i.am.symbolic, llc*, 866 F.3d at 1322, 123 USPQ2d at 1747 (quoting *Herbko Int'l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1164-65, 64 USPQ2d 1375, 1380 (Fed. Cir. 2002)); *Federated Foods, Inc. v. Fort Howard Paper Co.*, 544 F.2d 1098, 1103, 192 USPQ 24, 29 (C.C.P.A. 1976) ("The fundamental inquiry mandated by [Section] 2(d) goes to the cumulative effect of differences in the essential characteristics of the goods [or services] and differences in the marks."); TMEP §1207.01.

Similarity of the Marks

Marks are compared in their entireties for similarities in appearance, sound, connotation, and commercial impression. *Stone Lion Capital Partners, LP v. Lion Capital LLP*, 746 F.3d 1317, 1321, 110 USPQ2d 1157, 1160 (Fed. Cir. 2014) (quoting *Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondee En 1772*, 396 F.3d 1369, 1371, 73 USPQ2d 1689, 1691 (Fed. Cir. 2005)); TMEP §1207.01(b)-(b)(v). "Similarity in any one of these elements may be sufficient to find the marks

confusingly similar.” *In re Inn at St. John’s, LLC*, 126 USPQ2d 1742, 1746 (TTAB 2018) (citing *In re Davia*, 110 USPQ2d 1810, 1812 (TTAB 2014)), *aff’d per curiam*, 777 F. App’x 516, 2019 BL 343921 (Fed. Cir. 2019); TMEP §1207.01(b).

Considering the marks in their entireties, applicant’s mark OMERRA is similar in appearance to the cited marks OMIERA and OMAIRA in that the marks comprise similar wording. Each mark consists of six letters, with the first two letters being “OM-”, and the last two letters being “-RA.”

Moreover, the marks can also be pronounced the same, and are thus similar in sound. Similarity in sound alone may be sufficient to support a finding that the compared marks are confusingly similar. *In re 1st USA Realty Prof’ls, Inc.*, 84 USPQ2d 1581, 1586 (TTAB 2007) (citing *Krim-Ko Corp. v. Coca-Cola Bottling Co.*, 390 F.2d 728, 732, 156 USPQ 523, 526 (C.C.P.A. 1968)); TMEP §1207.01(b)(iv).

Further, because the marks appear to be meaningless, each mark is likely to convey a similar commercial impression as a coined term.

Although the cited mark OMAIRA includes a design, the relatively simple rectangular design does not detract significantly from the similarities between applicant’s and registrant’s mark. When evaluating a composite mark consisting of words and a design, the word portion is normally accorded greater weight because it is likely to make a greater impression upon purchasers, be remembered by them, and be used by them to refer to or request the goods and/or services. *In re Aquitaine Wine USA, LLC*, 126 USPQ2d 1181, 1184 (TTAB 2018) (citing *In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012)); TMEP §1207.01(c)(ii). Thus, although marks must be compared in their entireties, the word portion is often considered the dominant feature and is accorded greater weight in determining whether marks are confusingly similar, even where the word portion has been disclaimed. *In re Viterra Inc.*, 671 F.3d at 1366-67, 101 USPQ2d at 1911 (citing *Giant Food, Inc. v. Nation’s Foodservice, Inc.*, 710 F.2d 1565, 1570-71, 218 USPQ2d 390, 395 (Fed. Cir. 1983)).

Because the marks comprise similar, phonetically equivalent wording and are likely to convey the same overall commercial impression, the marks are considered similar for likelihood of confusion purposes.

Relatedness of the Goods

The goods and/or services are compared to determine whether they are similar, commercially related, or travel in the same trade channels. See *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369-71, 101 USPQ2d 1713, 1722-23 (Fed. Cir. 2012); *Hercko Int’l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1165, 64 USPQ2d 1375, 1381 (Fed. Cir. 2002); TMEP §§1207.01, 1207.01(a)(vi).

The compared goods and/or services need not be identical or even competitive to find a likelihood of confusion. See *On-line Careline Inc. v. Am. Online Inc.*, 229 F.3d 1080, 1086, 56 USPQ2d 1471, 1475 (Fed. Cir. 2000); *Recot, Inc. v. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1898 (Fed. Cir. 2000); TMEP §1207.01(a)(i). They need only be “related in some manner and/or if the circumstances surrounding their marketing are such that they could give rise to the mistaken belief that [the goods and/or services] emanate from the same source.” *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369, 101 USPQ2d 1713, 1722 (Fed. Cir. 2012) (quoting *7-Eleven Inc. v. Wechsler*, 83 USPQ2d 1715, 1724 (TTAB 2007)); TMEP §1207.01(a)(i).

When analyzing an applicant’s and registrant’s goods and/or services for similarity and relatedness, that determination is based on the description of the goods and/or services in the application and registration

at issue, not on extrinsic evidence of actual use. *See Stone Lion Capital Partners, LP v. Lion Capital LLP*, 746 F.3d 1317, 1323, 110 USPQ2d 1157, 1162 (Fed. Cir. 2014) (quoting *Octocom Sys. Inc. v. Hous. Computers Servs. Inc.*, 918 F.2d 937, 942, 16 USPQ2d 1783, 1787 (Fed. Cir. 1990)).

Registration No. 4409970 (OMIERA)

In this case, applicant's "Appliances for removing make-up, non-electric" are considered related to registrant's cosmetics goods because the same entity frequently provides goods similar to applicant's and registrant's under the same mark. This makes confusion likely where, as here, similar marks for the goods are used in connection with different entities.

The attached Internet evidence, consisting of website excerpts featuring products from Maybelline, Olay, and Sephora, establishes that the same entity commonly manufactures, produces, or provides "Appliances for removing make-up, non-electric" (applicant's goods) and (2) "Anti-aging cream" and/or "Cosmetic preparations for skin renewal" (registrant's goods), and markets the goods under the same mark. Thus, these goods in the application are considered related to registrant's goods for likelihood of confusion purposes. *See, e.g., In re Davey Prods. Pty Ltd.*, 92 USPQ2d 1198, 1202-04 (TTAB 2009); *In re Toshiba Med. Sys. Corp.*, 91 USPQ2d 1266, 1268-69, 1271-72 (TTAB 2009).

Registration No. 6711910 (OMAIRA)

In this case, applicant's and registrant's goods are related in that the application and registration both list common home and kitchen goods in International Class 21. Applicant's and registrant's goods are thus similar in nature.

Indeed, the goods in the application and registration are identical as to "Containers for household or kitchen use." Therefore, it is presumed that the channels of trade and class(es) of purchasers are the same for these goods. *See Cai v. Diamond Hong, Inc.*, 901 F.3d 1367, 1372, 127 USPQ2d 1797, 1801 (Fed. Cir. 2018) (quoting *In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012)). Thus, applicant's and registrant's goods are related.

Applicant's other Class 21 kitchen goods are also related to registrant's kitchen goods. The attached Internet evidence, consisting of website excerpts from Crate & Barrel, Ikea, and Pottery Barn, establishes that the same entity commonly manufactures, produces, or provides (1) Class 21 kitchen goods similar to those in the application and (2) "Containers for household or kitchen use" and/or "General purpose storage bins for household use," and markets the goods under the same mark. Thus, applicant's and registrant's goods are considered related for likelihood of confusion purposes. *See, e.g., In re Davey Prods. Pty Ltd.*, 92 USPQ2d 1198, 1202-04 (TTAB 2009); *In re Toshiba Med. Sys. Corp.*, 91 USPQ2d 1266, 1268-69, 1271-72 (TTAB 2009).

Conclusion

Because applicant's and registrants' marks are similar and the goods associated with the marks are related, there is a likelihood of confusion as to the source of applicant's goods. Therefore, applicant's mark is not entitled to registration.

Applicant should note the following potential additional ground for refusal.

B. PRIOR-FILED APPLICATION MAY BAR REGISTRATION

The filing date of pending U.S. Application Serial No. **79318917** (OMERAS) precedes applicant's filing date. See attached referenced application. If the mark in the referenced application registers, applicant's mark may be refused registration under Trademark Act Section 2(d) because of a likelihood of confusion between the two marks. *See* 15 U.S.C. §1052(d); 37 C.F.R. §2.83; TMEP §§1208 *et seq.* Therefore, upon receipt of applicant's response to this Office action, action on this application may be suspended pending final disposition of the earlier-filed referenced application.

In response to this Office action, applicant may present arguments in support of registration by addressing the issue of the potential conflict between applicant's mark and the mark in the referenced application. Applicant's election not to submit arguments at this time in no way limits applicant's right to address this issue later if a refusal under Section 2(d) issues.

Although applicant's mark has been refused registration, applicant may respond to the refusal(s) by submitting evidence and arguments in support of registration.

RESPONDING TO THIS OFFICE ACTION

Response guidelines. For this application to proceed, applicant must explicitly address each refusal and/or requirement in this Office action. For a refusal, applicant may provide written arguments and evidence against the refusal, and may have other response options if specified above. For a requirement, applicant should set forth the changes or statements. Please see "["Responding to Office Actions"](#)" and the informational [video "Response to Office Action"](#) for more information and tips on responding.

Please call or email the assigned trademark examining attorney with questions about this Office action. Although an examining attorney cannot provide legal advice, the examining attorney can provide additional explanation about the refusal(s) and/or requirement(s) in this Office action. *See* TMEP §§705.02, 709.06.

The USPTO does not accept emails as responses to Office actions; however, emails can be used for informal communications and are included in the application record. *See* 37 C.F.R. §§2.62(c), 2.191; TMEP §§304.01-.02, 709.04-.05.

Question: how long will the product last if not used daily?

Answer: The product comes with multiple "tips" you can replace as you use the eraser. I find that wiping the tip on a paper towel (or something like it) after I use it, extends the life of the tip. I have gotten 3+ months of daily use out of the product. It is well worth owning ❤️

Question: How do you clean the tip after using it?

Answer: I just wipe it on a tissue, I mainly use it for mascara mishaps. It cleans up around my lash line without smearing or removing the mascara that is on my lashes.

Is this similar to the glammette eraser pen?

Answer:

No I would not recommend this product. Dries up quickly. Seems to just smear the make-up I'm trying to clean up.

I absolutely love this product. It'd perfect for cleaning up and getting sharp edge on eyeliner. The problem is that you have to buy online. Why don't other brands sell something like this? Missed opportunity.

You only need to use the very tip very lightly to clean up little mistakes. Works very well and has saved me a lot of swearing. Only downside is that you really need a q-tip or something to wipe off excess, otherwise your edges get a little blurred throughout the day, or you can't re-apply over the same spot to sharpen it back up without it going on kind of funky.

Question: What are the undertones of these shades?
Answer: Fair porcelain and natural ivory are both cool/pink undertones. That's what I am. Very fair w strawberry blonde hair n freckles. The fair porcelain is what I would use in the winter, n the natural ivory is what I use right now.

★★★★★ Great Stuff

Reviewed in the United States on July 26, 2022

Color: 115 IVORY | [Verified Purchase](#)

The coverage is just right for my 68 years. Love the 50 SPF. I heard it was being discontinued. Hope not. It applies with a damp sponge and融入 the skin very quickly and easily and leaves a good medium coverage that dries to a demi-matte/satin finish that looks quite natural on the skin and feels weightless. The shade range is far too limited in my opinion, especially for a product that claims to be full coverage. Some people with sensitive skin may find it irritating due to chemical sunscreens and alcohol in the formula.

Pros:

- Looks like skin, very natural
- Easy to apply and blend
- Can vary the amount of coverage depending on the application method. Can go from sheer to medium (would not call this full coverage).

Leave uneven lightening on the skin, can have foundation fading

★★★★★ Me encantó la calidad y el acabado

Reviewed in Mexico on September 28, 2019

Color: 112 NATURAL IVORY | [Verified Purchase](#)

Me encanto, sólo que te da cobertura media y el tono me quedó muy rosa, necesitaba algo más amarillo... Antes de pedirlo checa el tono en la página de maybelline pero de EU. Incluso tiene un simulador para que pruebes los tonos con una selfie. Hay quienes dicen que es el dupe de la BB cream de IT cosmetics, en mi opinión se acerca mucho pero la otra tiene más beneficios, es una buena opción por el precio.

Story

Designing for the tastes of people around the world

Do you sometimes cook dishes from other cultures? Then you're part of an international trend called transculturalism. It basically means that global cooking and eating habits are a lot more similar than you may think. How can we cater for this trend? We designed the VARDAGEN series with products that can be used in multiple ways. In Swedish, VARDAGEN means "every day", which is just how the products are meant to be used, no matter where you live.

"Consumers have access to cultural diversity in cooking and eating from all over the world," explains Ina Tidbeck Sjöblom, who helped create the products. "They want to taste the best of all cultures, which means that it's not only in Asia that we need eating products for sushi."

Creating products for all our differences (and similarities)

The VARDAGEN products are designed to turn differences into similarities. Like the eggcup. "We did it in a shape that's more like a very small dip bowl," explains Ina. "So it's also for Asian eating, you know the bowl where you put chili paste and other condiments." Another bowl has just the right

What is stainless steel?

Stainless steel is found in everything from building structures and cars to sinks and knives. It's easy to see why it has so many uses. Stainless steel is hard and durable and has good resistance to corrosion – namely rust. It generally has a low nickel content, and for IKEA products we mainly use stainless steel that's nickel-free. Like many other metals, it can be recycled again and again to become new, hardwearing items – without losing its valuable properties.

Our take on plastic

Plastic is a key material for IKEA, and remains so going forward. It is strong, durable, lightweight and versatile. It is a main component in a large amount of our products and has a wide variety of applications from surface materials such as paint and foil, to screws and shelf pegs. There is a lot of valid concern regarding how plastic impacts the environment and at IKEA we take this very seriously. As part of our larger circular journey and transition from virgin fossil based material, we are working hard to change all plastic in our home furnishing products to plastic made from recycled and/or renewable raw materials.

Only recycled or renewable plastics

Plastic is most commonly derived from oil and gas, which are non-renewable fossil sources. These sources do not renew themselves and will eventually be depleted. Our ambition is that by 2030, all plastic used in our products will be based on renewable or recycled materials. Renewable plastic is made from materials such as vegetable oil, corn, wheat grain and sugar cane. Recycled plastic allows us to give a second life to non-biodegradable products such as PET bottles that would otherwise end up in landfill. Using recyclable sources also lessens our dependency on oil as a raw material. Currently more than 40% of our plastic products are based

Story

A more festive everyday with SÄLLSKAPLIG

Do you long for Sunday dinners at your grandmother's or just love old, beautiful glass? With SÄLLSKAPLIG you can recreate the best of the good old times in your own home. The designer Hanna-Kaarina Heikkilä, was inspired by yesterday's traditional glassware when she created the patterns and shapes in the SÄLLSKAPLIG series.

Hanna-Kaarina is an enthusiastic glass collector. "I love glass from different eras and places. For SÄLLSKAPLIG I was inspired by the glassware you can find in dusty old flea markets," she says.

Feeling of weekend during the workweek

Glass has been a part of our history for thousands of years – as everyday objects, but also as something that is used only on special occasions. This difference is something Hanna-Kaarina would like to erase. "Setting a table shouldn't be so serious, it should be fun. Sometimes you just want to add a silver lining to a regular Monday morning. By drinking juice from a tall wine glass, you can make the beginning of the week feel more like the start of the weekend."

temperature. Tempering or various additives gives you extra-strong and impact-resistant glass that in some cases can be taken straight from freezer to oven without cracking. A big benefit is how glass can be recycled over and over without the quality deteriorating. Also, a lot less energy is needed to melt recycled glass compared to new raw materials. Our goal is to eventually use only recycled glass in our range.

Form design process

A more festive everyday with SÄLLSKAPLIG

When we created SÄLLSKAPLIG we wanted to make glass that can add a silver lining to the everyday. The inspiration comes from the kind of glass you can find in flea markets. It's the best of the good old times with a modern twist – a mix of organic shapes and geometric patterns that easily can be combined with the tableware you already have at home.

Designer thoughts

Designer thoughts

I'm an enthusiastic glass collector and love flea markets. But even more so, I love to draw inspiration from old things and add a modern twist to them – so designing SÄLLSKAPLIG glassware was something of a dream project. The shapes and expressions in the series are reminiscent of old times and are perfect for a traditional table setting, but can also be used in new and creative ways. Not least, it is perfect for adding a little luxury to life, maybe on an ordinary Monday!

Scrape every delicious bit of brownie batter, pasta sauce and rice pudding with our signature yellow silicone and wood spatula. Constructed with a nylon core for strength, the silicone head ably stirs and spreads the thickest doughs, batters and nut butters—or folds delicate meringues. Its flexible, tapered edges scrape the bowl, blender or pan perfectly clean, and soft-touch silicone won't damage non-stick cookware and resists stains, scratches and heat up to 600 degrees. Natural beechwood shapes a cylindrical handle for a sturdy grip and a warm, classic look. We love the way the refined beveled edge finishes the elongated handle with a dynamic detail. Combine the mustard yellow spatula with our Maeve kitchenware and the other exquisitely proportioned utensils in our exclusive Crate & Barrel collection for a well-outfitted workspace that's up to any cooking challenge.

By choosing FSC®-certified utensils, you are supporting responsible management of the world's forests.

— OVERVIEW

Add buttery-soft, thorn-resistant gloves to your list of gardening must-haves. With an elbow-length cuff for extra protection from brambles, these top-grain goatskin gloves are 100% breathable and lightweight. Time to tackle that rose bush.

- Machine sewn of 100% goatskin leather; cow split cuff.
- Butterly soft goatskin; designed to fit a woman's hand; longer cuff.
- Made in USA.

Attorney of Record

United States Patent and Trademark Office (USPTO)

USPTO OFFICIAL NOTICE

Office Action (Official Letter) has issued

on August 27, 2022 for

U.S. Trademark Application Serial No. 97118792

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action in order to avoid your application abandoning. Follow the steps below.

(1) [**Read the Office action**](#). This email is NOT the Office action.

(2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS). Your response must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response period. Otherwise, your application will be [abandoned](#). See the Office action itself regarding how to respond.

(3) **Direct general questions** about using USPTO electronic forms, the USPTO [website](#), the application process, the status of your application, and whether there are outstanding deadlines to the [Trademark Assistance Center \(TAC\)](#).

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

GENERAL GUIDANCE

- [**Check the status**](#) of your application periodically in the [Trademark Status & Document Retrieval \(TSDR\)](#) database to avoid missing critical deadlines.
- [**Update your correspondence email address**](#) to ensure you receive important USPTO notices about your application.
- [**Beware of trademark-related scams**](#). Protect yourself from people and companies that may try to take financial advantage of you. Private companies may call you and pretend to be the USPTO or may send you communications that resemble official USPTO documents to trick you. We will never request your credit card number or social security number over the phone. And all official USPTO correspondence will only be emailed from the domain “@uspto.gov.” Verify the correspondence originated from us by using your Serial Number in our database, [TSDR](#), to confirm that it appears under the “Documents” tab, or contact the [Trademark Assistance Center](#).

- **Hiring a U.S.-licensed attorney.** If you do not have an attorney and are not required to have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
